Management of the Corporation is soliciting your proxy. Solicitations of proxies will be primarily by mail, but may also be by newspaper publication, in person or by telephone, fax or oral communication by directors, officers or employees of the Corporation who will be specifically remunerated therefor by the Corporation. Management of the Corporation has retained the services of **Kingsdale Shareholder Services (“Kingsdale”)** for the solicitation of proxies at a cost estimated at \$32,000, to be borne by the Corporation. Who can vote?

Shareholders of record on March 19, 2014 are entitled to receive notice of and vote at the Meeting. Shareholders are entitled to one (1) vote per Share on any matters that may come before the Meeting. As of March 14, 2014, there were 173,328,768 Shares issued and outstanding.

A quorum of Shareholders shall be present at the Meeting if two or more persons holding not less than 10% of the Shares entitled to vote at the Meeting are present in person or represented by proxy, irrespective of the number of persons actually present at the Meeting.

If a body corporate or association is a Shareholder, the Corporation shall recognize any individual authorized by a resolution of the directors or governing body of the body corporate or association to represent it at the Meeting. An individual thus authorized may exercise on behalf of the body corporate or association all the powers it could exercise if it were an individual Shareholder. If two or more persons hold Shares jointly, one of those holders present at the Meeting may in the absence of the others vote the Shares, but if two or more of those persons who are present, in person or by proxy, vote, they shall vote as one on the Shares jointly held by them.

PricewaterhouseCoopers LLP has served as auditors of the

Corporation since the Corporation's incorporation in May 2008 and as auditors of Aeroplan Income Fund, the predecessor of the Corporation, since its inception on May 12, 2005. The auditors appointed at the Meeting will serve until the end of the next annual meeting of Shareholders or until their successors are appointed.

The Board of Directors of the Corporation recommends to the Shareholders to vote FOR the appointment of PricewaterhouseCoopers LLP as auditors and the determination of the auditors' remuneration by the Directors of the Corporation.

Advisory Vote on Executive Compensation

The Board of Directors believes that Shareholders should have the opportunity to fully understand the objectives and principles underlying executive compensation decisions made by the Board of Directors. The Corporation's executive compensation policies and programs are based on the fundamental principle of pay-for-performance to align the interests of the senior executive team with those of the Shareholders. This compensation approach allows the Corporation to attract and retain high-performing executives who will be strongly incented to create value for the Shareholders on a sustainable basis.

The Corporation is committed to providing Shareholders with clear, comprehensive and transparent disclosure relating to executive compensation and to receive feedback from Shareholders on this matter. In 2013, Shareholders had an opportunity to vote on our approach to executive compensation. This was an advisory and non-binding vote, and a very high percentage (91.78%) of our Shareholders who casted a vote voted for our approach to executive compensation. Shareholders will again be asked to vote, on an advisory basis, on our approach to executive compensation at the Meeting.

The resolution Shareholders will be asked to approve is similar to the form of resolution recommended by the Canadian Coalition for Good Governance. Please carefully review the “Compensation Discussion and Analysis” starting on page 27 of this Information Circular before voting on this matter. As this is an advisory vote, the results will not be binding upon the Board of Directors. However, in considering its approach to executive compensation over the upcoming years, the Board of Directors will take into account the results of the vote on such resolution, together with the comments and concerns received from Shareholders.

At the Meeting, Shareholders will be asked to approve the following resolution (the “**Say-on-Pay Advisory Resolution**”):

“BE IT RESOLVED, on an advisory basis and not to diminish the role and responsibilities of the Board of Directors:

THAT the Shareholders accept the approach to executive compensation disclosed in the Corporation’s Information Circular dated March 14, 2014.”

The Board of Directors of the Corporation recommends to the Shareholders to vote FOR the approval of the Say-on-Pay Advisory Resolution.

If you do not specify how you want your Shares voted, the persons named as proxyholders will cast the votes represented by proxy at the Meeting FOR the approval of the Say-on-Pay Advisory Resolution.

Consideration of Other Business

We will:

- Report on other items that are significant to our business; and
- Invite questions and comments from Shareholders.

THE NOMINATED DIRECTORS

The articles of incorporation of the Corporation provide for the Board of Directors to consist of a minimum of three (3) and a maximum of twelve (12) Directors, a minimum of twenty-five percent (25%) of whom must be residents of Canada. The number of Directors presently in office, as determined by the Board of Directors, is ten (10).

The proposed Board of Directors consists of ten (10) Directors, nine (9) of whom are independent from the Corporation. Please refer to “Statement of Governance Practices - Board of Directors - Independence” of this Information Circular for a discussion on Director independence.

Directors are elected annually. Each of the nominees whose names are set forth below are currently members of the Board of Directors, and have been so since the dates indicated. Management does not contemplate that any of the nominees will be unable to serve as a Director but, if that should occur for any reason prior to the Meeting, the persons named in the enclosed form of proxy reserve the right to vote for another nominee at their discretion. Each Director elected will hold office until the end of the next annual Shareholders’ meeting or until his or her successor is elected or appointed, unless his or her office is vacated earlier.

Board Nominees

- (J) David H. Laidley was a director of 2907160 Canada Inc. (formerly ProSep Inc.) ("ProSep") from August 2008 until January 2014. On April 12, 2013, the Autorité des marchés financiers issued a management cease trade order restricting all trading in securities of ProSep by management and insiders of ProSep due to failure to file its annual disclosure documents within the prescribed time period. The management cease trade order was revoked on June 17, 2013. On October 28, 2013, ProSep filed for and obtained creditor protection under the *Companies' Creditors Arrangement Act* (Canada). At the same time, the Superior Court of Quebec (Commercial Division) approved the sale of substantially all of ProSep's assets to a third party. The distribution of ProSep's liquidation proceeds was completed and ProSep was dissolved on January 15, 2014.

Other Directorships Policy

On August 12, 2013, the Board of Directors adopted a policy limiting at four the number of outside public company directorships that can be accepted by a member of the Corporation's Board of Directors in addition to the Aimia directorship (for a total of five public company directorships). All directors comply with such policy.

Board Interlocks

The Governance and Nominating Committee has reviewed the membership on the boards of other public companies of the Corporation's proposed nominees to the Board of Directors. No two (2) proposed nominees to the Board of Directors are members of the same board of directors of another public company.

In order to limit board interlocks, the Board of Directors adopted in 2011 a policy pursuant to which Directors must first disclose to the Governance and Nominating Committee for its review any proposed appointment to the board of a public company prior to accepting such appointment.

Majority Voting for Election of Directors

On November 14, 2008, the Board of Directors adopted a "majority voting" policy, pursuant to which if a nominee for election as Director receives a greater number of votes "withheld" than votes "for" at a

meeting of Shareholders, he or she will be expected to tender his or her resignation to the Board of Directors promptly following the meeting of Shareholders at which the election is held. Upon receiving such resignation, the Governance and Nominating Committee will consider it and make a recommendation to the Board of Directors whether to accept it or not. The Board of Directors will make its decision and announce it in a press release within 90 days following the meeting of Shareholders. The Director who tendered his or her resignation should not be part of any deliberations of any Committee or of the Board of Directors pertaining to the resignation offer.

The policy only applies in circumstances involving an uncontested election of Directors. For the purpose of the policy, an “uncontested election of Directors” means that the number of Director nominees is the same as the number of Directors to be elected to the Board of Directors and that no proxy material is circulated in support of one or more nominees who are not part of the candidates supported by the Board of Directors.

Directors Attendance Record

In the 2013 financial year, the Board of Directors and its three (3) standing Committees held the following number of meetings:

Overall, the combined attendance by the Directors at Board of Directors and Committee meetings was 99.6%. A record of attendance by individual Directors at meetings of the Board of Directors and its Committees, as applicable, for the 2013 financial year is set out below.

Sessions without Management and Meetings Held

The non-Management Directors meet “in camera” (without Management representatives) at each regularly scheduled and special Board and Committee meeting. The Chairman of the Board or, as the case may be, the Chair of the Committee, presides over these sessions and informs Management of the nature of the items discussed and if any action is required. Thirty-three (33) such meetings were held in 2013.

Retirement Policy for Directors

The Corporation’s policy for retirement is that no person shall be appointed or elected as a Director if the person is aged 75 or more. The policy allows for an exception where the Board of Directors determines it is in the interest of the Corporation to request a Director to extend his/her term beyond the regular retirement age, provided however that such extension is requested in one-year increments.

STATEMENT OF EXECUTIVE COMPENSATION

Human Resources and Compensation Committee Report to Shareholders

The Board of Directors, assisted by the HRCC, is responsible for the executive compensation policies and practices of the Corporation. It has specific accountability for the compensation of the Group Chief Executive (the “CEO”) and the other Named Executive Officers (the “NEOs”), whose compensation is detailed in the “Compensation Discussion and Analysis” section that follows.

The members of the HRCC have extensive experience in compensation, business management, finance, law and corporate governance, among other areas. In addition, the members of the HRCC have significant experience in the areas of executive compensation and risk management as senior leaders of complex organizations and through their prior and current membership on the HRCC. The information with respect to Director nominees starting at page 14 provides a description of the education and experience of each member of the HRCC as of the date of this Information Circular. All of the Directors who served as members of the HRCC during the year ended December 31, 2013 are independent within the meaning of applicable regulatory requirements. The HRCC held five meetings in the fiscal year ended December 31, 2013 and met without Management present at each meeting. In addition, the HRCC employs an independent compensation consultant, PCI – Perrault Consulting Inc., that advises the HRCC on the design and market competitiveness of our executive compensation program. While the advice of the external consultant is an important input into the HRCC’s decision-making process, all decisions regarding executive compensation are the ultimate responsibility of the Board of Directors. When making recommendations to the Board of Directors, the HRCC believes that shareholder interests should be considered first and foremost. In addition, the HRCC exercises its judgment and considers a variety of additional important factors, including the Corporation’s business strategy, competitive market forces, independent external advice, internal business needs, and governance best practices.

The HRCC undertook the following activities in 2013:

- 1- *Executive compensation benchmarking review.* With the assistance of the HRCC’s external consultant, the HRCC undertook a market review of the Corporation’s executive compensation levels. This included a review of the peer companies that are used for compensation benchmarking purposes and the weighting of these groups in assessing market positioning. Total compensation levels were reviewed against market to ensure they remained competitive, aligned with individual and business performance, and ultimately aligned with shareholder interests.
- 2- *Historical performance analysis.* As part of the HRCC’s review of the Corporation’s executive compensation plans, a review of the Corporation’s historical financial performance was conducted relative to external peer companies in order to review compensation levels within the context of performance. This review was performed relative to the same peer groups that are used for compensation benchmarking purposes, in addition to a group of additional companies that are commonly referenced by the investment community as performance peers. The analysis provided a view of performance based on the variety of metrics that investors use to evaluate the Corporation, including but not limited to those that are used as metrics in the Corporation’s incentive compensation plans, and was performed over multiple timeframes to provide a robust view of performance over the shorter and longer terms.
- 3- *Reviewed compensation plans, policies and practices.* In 2013, the HRCC reviewed material changes to compensation plans, policies and practices within the context of the Corporation’s continued global expansion as well as current governance best practices. Further details regarding these plans, policies and practices are provided in the “Compensation Discussion and Analysis” section that follows.
- 4- *Organizational Effectiveness.* The HRCC oversaw the implementation of a new organizational structure designed for the long-term growth of the Corporation. This new structure was implemented in the first quarter of 2013 and included, amongst other changes, the appointment of a Group Chief Operating Officer and the establishment of a global product function. Furthermore, the HRCC conducted a review of senior executive talent and succession plans to ensure continuity and sustainability of leadership.

Executive compensation is a high-profile area of shareholder focus, and the HRCC believes that Shareholders should have transparent information regarding how much our executives are paid, how the Corporation's executive compensation program works, and the basis upon which the HRCC approved the payments that were made to executives. The HRCC takes its responsibilities very seriously, and believes that the executive compensation program described in these pages is consistent with the Corporation's business strategy, is aligned with shareholder interests, and supports governance best practices regarding executive compensation.

Sincerely,

Joanne Ferstman (Chair)
Michael Fortier

Executive Compensation Overview and Key Objectives

The Corporation's executive compensation program is designed to achieve the following key objectives:

Compensation Objective

Design Criteria

- Attract and retain executives with the skills, capabilities, talent and passion required for the Corporation to achieve its long-term strategic objectives. → Provide total compensation levels at market median of the applicable peer group, when target performance levels are achieved.
- Motivate executives and reward them for the achievement of ambitious corporate objectives, thereby building a strong, results-oriented culture that links pay directly with performance. → Provide the opportunity for top-quartile total compensation when performance is exceptional. Total compensation can be reduced to below-median when performance targets are not met.
- Align executive interests with those of Shareholders, with the ultimate objective of sustained long-term shareholder value creation, without encouraging excessive risk taking. → Ensure a material proportion of compensation is equity-based with multi-year vesting, combined with minimum shareholding requirements which promotes sustained performance.

To ensure our pay-for-performance and shareholder alignment objectives are met, over half of the compensation paid to senior executives is incentive-based and a material portion is equity-based, as illustrated in the following charts.

Use of Compensation Consultants

During 2013, the HRCC retained the services of PCI – Perrault Consulting Inc. to provide external consulting advice on the compensation of senior management, including the NEOs identified in this Information Circular. PCI – Perrault Consulting Inc. reviewed and provided advice on proposed changes to compensation policies, including share ownership guidelines, the change in control policy and incentive plans. Representatives of PCI – Perrault Consulting Inc. were asked to review HRCC material in advance of and to attend HRCC meetings. PCI – Perrault Consulting Inc. is also asked to comment on market levels and payments to executives as required. PCI – Perrault Consulting Inc. has provided consulting services to the HRCC since the Corporation’s initial public offering as an income trust in 2005.

Executive compensation-related fees (i.e. services related to determining compensation for any of the Corporation’s Directors or executive officers) and all other fees paid to PCI – Perrault Consulting Inc. for services provided for 2013 and 2012 are shown in the following table.

Type of Fees	Consulting Fees Billed in 2013 and 2012		Percentage of Total Fees Billed in 2013 and 2012	
	PCI – Perrault Consulting Inc.		PCI – Perrault Consulting Inc.

All Other Fees ⁽¹⁾	\$6,525	\$16,436	5%	15%
Total Annual Fees	\$130,597	\$109,208	100%	100%

- (1) “All Other Fees” in 2012 and 2013 represents fees paid to PCI-Perrault Consulting Inc. for consulting services rendered to the Corporation in relation to the preparation of the Information Circulars dated March 16, 2012 and March 15, 2013 respectively. All fees of PCI-Perrault Consulting Inc. that are not related to executive compensation must be pre-approved by the HRCC.

While the advice of external consultants is an important input into the HRCC’s decision-making process, all executive compensation decisions are the ultimate responsibility of the Board of Directors. When making recommendations to the Board of Directors, the HRCC exercises its judgment and considers a variety of important factors, including the Corporation’s business strategy, competitive market forces, independent external advice, internal business needs, governance best practices and shareholder interests.

Management worked with various compensation consultants such as Mercer, Towers Watson, Equilar and Deloitte in 2013 and 2012 to obtain market benchmark data for compensation practices and policies and for tax and mobility advice.

Benchmarking Peer Groups

External market benchmarking is an important part of the Corporation’s executive compensation program. In order to calibrate the Corporation’s pay practices relative to the market, it is important to have a benchmark peer group that reflects the various markets in which the Corporation competes for the leadership skills and talent required for the Corporation to be successful. In determining the peer groups, the HRCC considered the following challenges:

- There is a lack of Canadian companies that are direct peers within the loyalty industry;
- In the United States and internationally, there are few companies of a comparable size, with a similar business mix and geographic footprint that compare well with the Corporation;
- Many loyalty management organizations are embedded within larger companies (such as financial institutions, credit card companies, or airlines) which are not reasonable peers for executive compensation benchmarking purposes; and
- Smaller players with niche market segments represent a significant source of competitive demand for talent.

As a result of these challenges, the HRCC has adopted an approach to selecting peer companies which allows for a globally consistent approach, while reflecting the complexities of the various markets in which

the Corporation competes for talent. Peer companies (the “**Comparator Groups**”) were chosen in Canada, the US and Europe which best reflect the Corporation’s size, international scope and industry sector. Comparator Group selection criteria are summarized as follows:

- Companies similar in size based on market capitalization and annual revenues (roughly 0.5x to 2.0x of the Corporation’s annual revenues)
- Companies with significant international operations
- Companies within similar industry sectors, including advertising/media, data analytics, internet retail, market research, business services and IT consulting
- Companies commonly referenced as peers from a shareholder point of view (based on analyst reports)

Details of the Comparator Groups for executive compensation benchmarking purposes are as follows:

<p>Canadian Comparator Group</p> <p>The Canadian Comparator Group provides a view of compensation practices for Canadian companies of a similar size and scope for executives based in Canada. In 2013, the Canadian Comparator Group consisted of:</p> <ul style="list-style-type: none"> • CAE Inc. • CORUS Entertainment • Gildan Activewear Inc. • Linamar Corp • Martinrea International Inc. • Russel Metals Inc. • Stantec • Tim Hortons Inc. • Toromont Industries Ltd. • Torstar Corp • Transcontinental Inc. • Transforce Inc. • Westjet Airlines Ltd.
<p>US Comparator Group</p> <p>The US Comparator Group provides a view of compensation practices for US companies of a similar size and scope for executives based in the US. In 2013, the US Comparator Group consisted of:</p> <ul style="list-style-type: none"> • Acxiom Corp • Alliance Data Systems Corp • Convergys Corp • DST Systems Inc. • Dun & Bradstreet Corp • Equifax Inc. • Expedia Inc. • Global Payments Inc. • Sapiient Corp • Teradata Corp • Total System Services Inc. • Valassis Communications
<p>European Comparator Group</p> <p>The European Comparator Group provides peer data for the Corporation’s executives based in Europe. In 2013, the European Comparator Group consisted of:</p> <ul style="list-style-type: none"> • Aegis Group PLC • Axel Springer Verlag AG • Daily Mail and General Trust PLC • GFK AG • Havas • Informa • Ipsos SA • Software AG • The Sage Group PLC • UBM PLC
<p>Blended Comparator Group</p> <p>The blended Comparator Group provides a view of total direct compensation practices for companies of a similar size and scope in Canada, the US and Europe. The blended Comparator Group is used for all NEOs other than the regional executives. The Comparator Groups are consistent with the Canadian, US and European Comparator Groups indicated above, and are weighted 60% Canadian, 20% US and 20% European.</p>

The Comparator Groups were selected based on the HRCC’s annual review of benchmarking peers. This review ensures peer companies continue to be aligned with the selection criteria outlined above.

In addition to reviewing proxy data, the Corporation also regularly reviews survey data to benchmark pay practices and levels. The Corporation’s compensation policies are also benchmarked against the best practices of other companies of a similar size and scope of operations.

It is important to note that while market data is an important input into the HRCC's compensation decisions, the HRCC does not make decisions based exclusively on this data. When making decisions on executive compensation the HRCC also considers factors such as, but not limited to:

- Each executive's experience, progression and success within their role;
- Each executive's leadership of their specific part of the business, in addition to the Corporation as a whole; and
- The Corporation's strategic plans with respect to executive talent development and succession.

Elements of the Corporation's Compensation Program – Fixed Compensation

Base Salary

The HRCC reviews and approves the base salary of each executive officer, taking into account the executive's responsibilities, experience, the scale and scope of business operations under supervision, and overall performance. As base salary represents a reference for a number of other compensation elements, critical attention is paid to positioning salaries against external peers for similar roles and within the Corporation. Base salaries are evaluated on a regional basis (e.g., Canada, the United States, Europe) against median levels of comparable roles within the Comparator Groups. Base salaries may be positioned above or below median in recognition of skills, competencies and experience.

Perquisites and Other Benefits

The Corporation's executive benefits, pension and perquisite programs have been designed to reflect competitive market practices in each of the regional markets where the Corporation competes for talent. Details on the value of these programs to the Corporation's executive officers are included in the Summary Compensation Table on page 44.

Executives also participate in the same benefits programs offered to all employees. These programs reflect typical market practices and conditions in the various countries in which the Corporation operates, and include mandatory and voluntary participation options for employees and their eligible dependents. Key elements of the benefit plans are basic group life insurance, accidental death and dismemberment insurance, short- and long-term disability coverage, medical and dental coverage, out-of-country insurance and supplementary life and accidental death and dismemberment insurance. In addition to these benefits, the Corporation's executive officers are provided with perquisite allowances ranging from 10% to 15% of their base salaries, subject to a maximum of \$90,000 for the CEO. The perquisite allowance can be used for various items, such as car lease and maintenance expenses, improved health, life, AD&D and long-term disability insurance, financial planning and club memberships, among others. Executive officers also receive Aeroplan Program membership privileges.

Retirement Plans

The Corporation's executives participate in retirement plans that reflect market practices and conditions in the various countries in which the Corporation operates. Summaries of the retirement plans available to the Corporation's executive officers in each region are as follows:

Canada: Retirement savings for Canadian-based executive officers are delivered through a registered defined contribution pension plan (the "**Defined Contribution Plan**") and a supplementary executive retirement plan (the "**SERP**"). The Defined Contribution Plan involves annual contributions through co-payment by executive officers and the Corporation equal to 15% of base salary, up to the annual maximums permitted under Canadian tax legislation. Once such maximums are met, a Corporation-paid defined contribution SERP completes the contribution to achieve the target annual contribution.

United Kingdom: Executives based in the United Kingdom participate in a retirement savings plan established for all UK-based employees. Under the plan, the Corporation contributes 10% of base salary provided the executive also contributes 5% of base salary. There is no supplemental retirement plan for UK-based executive officers.

United States: Executives based in the United States participate in a 401(k) retirement savings plan established for all eligible US-based employees. Under the plan and subject to IRS annual contribution maximums, executives may contribute up to 75% of their base pay. The Company matches 40% of executives' contributions up to a maximum of 6% of base pay. There is no supplemental retirement plan for US-based executive officers.

Elements of the Corporation's Compensation Program – Variable Compensation

Short-Term Incentives

The Annual Performance Incentive Plan is an important component of the Corporation's executive compensation program. The main objective of the plan is to recognize and reward executives for the achievement of results that are aligned with business objectives over the annual performance cycle.

Each executive is assigned an annual performance incentive target, expressed as a percentage of base salary, which is established based on the market median of the applicable Comparator Group. Actual incentive payments can range from zero to 2.0x the target incentive based on the achievement of corporate, regional and individual results. The performance metrics used in the plan and the business rationale for using these metrics are as follows:

Performance Metrics	Reasons for Selection
<i>Corporate Metrics:</i>	
– A-EBITDA ⁽¹⁾	– A-EBITDA and Free Cash Flow are two of the primary metrics tracked by Shareholders to evaluate the profitable growth of our business and our ability to generate returns for Shareholders
– Free Cash Flow ⁽²⁾	
– Adjusted Net Earnings ⁽³⁾	
<i>Regional Metrics:</i>	
– Regional A-EBITDA or EBITDA	– Regional executives are directly responsible for A-EBITDA / EBITDA results within their regions
– Regional Gross Billings / Gross Margins	– Gross Billings / Margins is a key indicator of our success in implementing the Corporation's growth strategy
– Regional Free Cash Flow	– Free Cash Flow is a key indicator of the health of our business
<i>Individual Strategic Metrics:</i>	
– Strategic objectives that are directly impacted by each executive	– The HRCC believes that each executive should also be evaluated on the successful achievement of objectives that are linked to the Corporation's business strategy, as well as critical qualitative metrics, such as effective leadership and behaviours that demonstrate and promote the Corporation's core values. These qualitative metrics are set at the beginning of each year and are evaluated after the end of the applicable year.

(1) A-EBITDA (Adjusted EBITDA) refers to earnings before interest, taxes, depreciation and amortization (EBITDA) adjusted for certain factors particular to the Corporation's business, such as changes in deferred revenue and future redemption costs. A-EBITDA also includes distributions and dividends received or receivable from equity-accounted investments. A-EBITDA is used by Management to evaluate performance and to measure compliance with debt covenants. Management believes A-EBITDA assists investors in comparing the Corporation's performance on a consistent basis without regard to depreciation and amortization, which are non-cash in nature and can vary significantly depending on accounting methods and non-operating factors such as historical cost. A-EBITDA is not a measurement based on GAAP, is not considered an alternative to operating income or net income in measuring performance, and is not comparable to similar measures used by other issuers.

(2) Free Cash Flow before dividends paid is defined as cash flows from operating activities, as reported in accordance with GAAP, less capital expenditures as reported in accordance with GAAP.

(3) Adjusted Net Earnings provides a measurement of profitability calculated on a basis consistent with A-EBITDA. Net earnings attributable to equity holders of the Corporation are adjusted to exclude Amortization of Accumulation Partners' contracts, customer relationships and technology, share of net earnings (loss) of equity-accounted investments and impairment charges. Adjusted Net Earnings includes the change in deferred revenue and Change in Future Redemption Costs, net of the income tax effect and non-controlling interest effect (where applicable) on these items at an entity level basis. Adjusted Net Earnings also includes distributions and dividends received or receivable from equity-accounted investments.

The weighting of corporate and regional metrics depends on the level and scope of each executive position. Financial metrics are measured against specific targets set at the beginning of the plan year. Individual strategic metrics are measured using a mix of quantitative results and qualitative evaluation by the HRCC of each executive's performance, including input from the CEO. Together, the financial and individual performance metrics can result in a total incentive payment of zero to 2.0x the target incentive amount.

The annual performance incentive metric weightings for each NEO is shown in the following table:

2013 Annual Performance Incentive Plan Formula / Weightings

Role	Target Incentive (% of base salary)	Consolidated Corporate Metrics			Regional Metrics			Individual Strategic Metrics
		A-EBITDA	Free Cash Flow	Adj Net Earnings	A-EBITDA / EBITDA	Gross Billings / Gross Margin	Free Cash Flow	
Group Chief Executive Officer ("CEO")	100%	30%	30%	20%		N/A		20%
Group Chief Operating Officer ("COO")	80%	30%	30%	20%		N/A		20%
Executive Vice President and Chief Financial Officer ("CFO")	65%	30%	30%	20%		N/A		20%
President & CEOs, Canada and US	65%	20%	20%	10%	10%	10%	10%	20%

The threshold, target and maximum performance levels and corresponding payouts are established each year by the HRCC based on the annual Board-approved targets within the Corporation's financial plan. For A-EBITDA, Free Cash Flow and Adjusted Net Earnings, the minimum threshold and maximum are 90% and 110% of target, respectively, while for Regional Gross Billings / Gross Margin the minimum threshold and maximum are 96% and 104% of target, respectively. The overall threshold for any payment under the Annual Performance Incentive Plan to any participant is 85% of the Board-approved consolidated A-EBITDA target, which aligns bonuses with the Corporation's capacity to pay.

The HRCC strongly believes the evaluation of performance and payouts under the Annual Performance Incentive Plan is one of its key responsibilities. The annual incentive payments are based predominantly on the achievement of financial results as compared to budgeted and targeted amounts set prior to the beginning of each applicable year. Often, actual results for a given year are impacted by events that either materialized during the year or which management could not reasonably predict or estimate in these budgeted amounts. Accordingly, it is often prudent to exclude the impact of these non-predictable or new items so that they will not influence the calculation of the annual incentive either positively or negatively. As such, the HRCC considers it important to use judgment as appropriate when evaluating performance results. Therefore, actual bonuses paid to executives (including NEOs) are not purely formulaic. Rather, the Board retains the discretion to adjust the final bonus payable based on evaluation of other relevant factors. For 2013, the Board exercised its discretion to make certain adjustments (positive and negative) to corporate and regional results to take into account the impact of certain extraordinary events. Results for purposes of incentive awards were adjusted to exclude the effects of (a) one-time costs related to the Aeroplan financial card agreement renewals and launch of Aeroplan Distinction in Canada, (b) the impact of the change in the Breakage estimate in the Aeroplan program and (c) the final judgment of the VAT litigation, each as more fully described in the Corporation's Management's Discussion and Analysis for the year ended December 31, 2013.

The Annual Performance Incentive Plan threshold, target, and maximum performance objectives for 2013 as applicable to the NEOs are presented in the following table, along with the reported full year 2013 results as well as the results adjusted to exclude the effect of the extraordinary events discussed above.

	2013 Performance Objectives			2013 Results	
	Threshold	Target	Maximum	As reported including extraordinary events	Adjusted to exclude extraordinary events
<i>Corporate Performance Objectives and Results (in millions of CAD)</i>					
A-EBITDA	\$382.9	\$425.4	\$467.9	\$150.5	\$410.2
Free Cash Flow	\$241.4	\$268.2	\$295.0	\$95.6	\$297.7
Adj. Net Earnings	\$232.6	\$258.4	\$284.2	\$103.1	\$271.4
<i>Regional Performance Objectives and Results⁽¹⁾</i>					
<i>Canada (in millions of CAD)⁽²⁾</i>					
A-EBITDA	\$375.9	\$417.7	\$459.5	\$137.7	\$424.4
Gross Billings	\$1,322.6	\$1,377.7	\$1,432.8	\$1,300.1	\$1,341.8

- (1) The Annual Performance Incentive award paid to the President & CEO, US was an amount guaranteed for his first year of employment.
- (2) Free Cash Flow also constitutes one of the performance objectives for the Canadian region and represents 10% of target bonus, or 4.92% of target total cash compensation paid to the President & CEO, Canada. The Corporation believes that regional Free Cash Flow metrics are competitively sensitive and therefore does not disclose them in its publicly available financial information, as such disclosure could seriously prejudice its interests. The regional Free Cash Flow objectives approved by the Board of Directors are appropriately ambitious and significantly difficult to achieve, so as to align with our performance-based rewards philosophy.

As part of the business planning process, the Chairman of the Board of Directors and the Chair of the HRCC review and set the individual strategic performance objectives of the CEO, who in turn develops the objectives for the Corporation's most senior executives, including the NEOs. The individual strategic metrics for NEOs have a 20% weighting and are determined based on quantitative results and a qualitative evaluation by the Board of Directors in the case of the CEO, and by the HRCC for the other NEOs, with input from the CEO. Strategic objectives for each NEO are established at the start of each year and include metrics from the following performance categories:

- Operational effectiveness and financial performance:
 - Revenue enhancement and financial plan achievement
 - Operational planning, budget oversight and resource management
 - Project delivery
- Strategic innovation and business growth:
 - Strategic business planning and development
 - Customer service enhancements
 - Business, product and/or process design and development
 - Product and program enhancements
- Organizational Effectiveness:
 - Talent development and succession planning
 - Development of effective leadership and communications processes
 - Development of organizational efficiency, capacity and capability
- Enhancement of the Corporation's capabilities and reputation:
 - Global collaboration and execution of enterprise-wide initiatives
 - Sustainability of the business and the communities in which the Corporation operates
 - Enhancement of professional skill set

Long-Term Incentives

The Corporation's long-term incentive programs are designed to attract, retain and motivate key employees to meet or exceed the Corporation's performance targets over the long-term. In 2013, long-term incentives were awarded in Options and PSUs under the Corporation's long-term incentive plan ("LTIP") as follows:

LTIP Award Type	Design Details	Design Objectives
Options	<ul style="list-style-type: none"> – Exercise price based on the average closing price for the five trading days preceding the grant date – Vest 25% a year over four years from date of grant – Expire seven years after date of grant 	<ul style="list-style-type: none"> – Align plan participants and shareholder interest <ul style="list-style-type: none"> ○ Options only have value if the share price increases from the date of grant – Motivate plan participants to pursue strategies that will enhance shareholder value over the long term
Performance Share Units (PSUs)	<ul style="list-style-type: none"> – Vest three years from date of grant – PSUs are earned based on the achievement of the Corporation's A-EBITDA growth targets over the three-year vesting period, with 50% weighted on the performance of each of the three years, and 50% on the aggregate performance of the full three year vesting period 	<ul style="list-style-type: none"> – Align plan participants with shareholders <ul style="list-style-type: none"> ○ PSU value directly tracks the share price – Reward plan participants for consistent earnings performance over the long-term <ul style="list-style-type: none"> ○ A-EBITDA was selected as the PSU performance metric since it is one of the principal metrics used by the investment community to evaluate the Corporation's performance and is considered to have an important impact on long-term value growth

The three-year A-EBITDA target in the PSU performance condition for the 2013 grants was established based on projections in the Corporation's three-year business plan, which is approved by the Board of Directors. The Corporation believes that three-year A-EBITDA targets are competitively sensitive, since they represent earnings projections into the future. Furthermore, as the Corporation does not provide financial forecasts in any public disclosure documents, three-year A-EBITDA targets have not been disclosed.

Shareholders should be aware that targets approved by the Board for A-EBITDA growth reflect increasing expectations on executives each year and explicitly align leadership across the organization to our performance-based rewards philosophy. The percentage of each NEO's total compensation that is related to these PSU targets is shown in the "Total Compensation Pay Mix" table on page 41 under the column labeled "% of Total Compensation from Share-Based Awards".

The HRCC believes that the combination of PSUs and time-vesting Options provides a strong link between pay and performance, by focusing executives on both financial objectives over a three year time horizon (measured by A-EBITDA growth) and share price appreciation over the longer term.

In addition to the LTIP, the Corporation also has two other long-term incentive plans described below. Details of all of these plans can be found under "Appendix B — Incentive Plans".

- **Omnibus Plan:** In 2006, the Board of Directors approved the implementation of the Omnibus Plan for attraction and retention purposes. All existing grants under the Omnibus Plan have been paid out and no further grants are anticipated. The Corporation expects to terminate the Omnibus Plan in 2014.
- **Deferred Share Unit Plan:** In 2008, the Board of Directors approved the DSU Plan to provide Directors and designated officers and executives of the Corporation with DSUs. DSUs are a

regular component of compensation for members of the Board of Directors and promote a greater alignment of interests with the Shareholders. DSUs may occasionally be used as new hire awards for senior executives.

Identification and Management of Risks Related to Compensation

In conjunction with the HRCC and the committee's external advisor, Management regularly reviews the Corporation's compensation programs to ensure they do not encourage excessive or inappropriate risk taking. These reviews include stress testing incentive plan designs under various performance scenarios (from minimum threshold to maximum) to understand the impact on potential incentive payouts. In addition, the Corporation has adopted the following policies to help prevent excessive risk taking:

- Incentive compensation for all executives is balanced between short-term and long-term incentives to promote balanced decision making and ensure that executives do not make decisions that increase short-term payouts at the expense of long-term performance.
- Short-term incentive compensation plans include a variety of performance metrics so that executives must take a balanced view to earn incentive payouts, rather than focusing on a single goal to the detriment of others.
- The HRCC reviews and approves the achievement of performance objectives and exercises judgement and discretion when finalizing incentive payouts under the Corporation's executive compensation plans.
- The Corporation has clawback provisions (as described in the following section) that allow the Board of Directors to require the reimbursement or forfeiture of all, or part of any incentive-based compensation under certain circumstances.
- The Corporation has minimum shareholding guidelines and trading guidelines for all executives (as described in the "Senior Executives' Minimum Shareholding Requirements and Trading Guidelines" section below) to ensure executive interests are aligned with those of Shareholders and which prohibit certain hedging activities. In addition, the CEO is required to maintain his minimum share ownership level for three (3) months after termination of employment for any reason.

Clawback/Recoupment of Incentive-Based Compensation

Under the Corporation's clawback/recoupment policy adopted in March 2013 (the "**Clawback Policy**"), the Board of Directors has the right, to the extent it determines in its discretion, to require the repayment or forfeiture by an Executive of all or part of any incentive-based compensation (including Options) in the event that: (i) the amount of any incentive-based compensation was calculated based upon, or contingent upon, the achievement of certain financial results that are subsequently the subject of, or affected by, a restatement of Aimia's financial statements for any reason, other than a change in accounting rules or policy with retroactive effect; and (ii) the amount of any incentive-based compensation would have been lower based on the restated financial results.

The clawback/recoupment applies to any incentive-based compensation made in all fiscal periods affected by the restatement, at the discretion of the Board of Directors bearing in mind all facts and considerations; provided, however, that the clawback/recoupment shall be applied only to incentive-based compensation made in 2011 or any following year.

Clawback/recoupment shall not be greater than the difference between the incentive-based compensation earned and the incentive-based compensation that would have been earned had the incentive-based compensation been determined using the restated financial results.

For the purposes of the Clawback Policy, "*Executive*" means the members of Aimia's executive management committee, as well as the heads of any of Aimia's principal business units and any other

person holding an executive function within Aimia or its principal operating subsidiaries, as the Board may in its discretion name in the event of a restatement, bearing in mind the relevant facts.

Senior Executives' Minimum Shareholding Requirements and Trading Guidelines

The Corporation has Shareholding Guidelines in which certain executives of the Corporation are required to maintain equities with an aggregate minimum value (the "**Minimum Share Ownership Value for Executives**") at least (i) 4.0x the annual base salary for the CEO, (ii) 2.0x the annual base salary for the COO, CFO and Executive Vice-Presidents; (iii) 1.25x the annual base salary for members of the Corporation's executive management committee; and (iv) 1.0x the annual base salary for the most senior executives reporting to an officer of the Corporation, in each case within a five-year period starting at the later of (a) January 1, 2009; and (b) the executives' date of hiring or promotion into a role that is subject to the guidelines. Equities that are included in the calculation of the guideline include Shares, DSUs, the in-the-money value of vested options, vested PSUs, and 2/3 of any unvested PSUs. The extent to which the Minimum Share Ownership Value for Executives is achieved is evaluated annually. Any executive not in compliance with the applicable guideline is required to retain 50% of all Shares vested or Options exercised (on an after-tax basis) until the guideline is met.

The following table outlines each NEO's share ownership as at March 14, 2014:

Share ownership as at March 14, 2014

Role	Required multiple	Shares (#)	Options (#)	PSUs (#)	DSUs (#)	Total Value (\$)⁽¹⁾	Total value as a multiple of base salary⁽²⁾
CEO	4.0	95,349	1,167,119	214,394	78,586	\$7,247,035	9.1
CFO	2.0	34,261	657,262	54,031	7,130	\$3,698,787	7.8
COO	2.0	-	775,519	63,966	-	\$3,454,168	5.4
President & CEO, Canada	2.0	-	504,017	53,447	4,413	\$2,041,798	4.9
President & CEO, US	2.0	--	204,937	33,959	3,474	\$549,363	1.2 ⁽³⁾

(1) Pursuant to the Shareholding Guidelines, "Total Value" represents the sum of (i) the value of Shares and DSUs, (ii) the value of vested PSUs and two-thirds (2/3) of the value of unvested PSUs and (iii) the value of Options vested but not exercised, in each case held by the applicable NEO as of March 14, 2014.

(2) The base salaries of the COO and President & CEO, US have been converted to Canadian dollars using a conversion rate of \$1.6113 per GBP and \$1.0299 per USD, respectively, which corresponds to the average exchange rates in 2013, consistent with the exchange rates that are used by the Corporation to determine compliance of the NEO's with the Shareholding Guidelines on an annual basis.

(3) Mr. Zea joined the Corporation on December 31, 2012. He has until December 31, 2017 to meet the share ownership requirements.

The Value at Risk of the securities held by Mr. Duchesne as of March 15, 2013 set forth in his biography under "The Nominated Directors" is comprised of 155,061 Shares, 57,308 Time-Vesting RSUs and 75,467 DSUs, 34,385 performance-based RSUs under the Omnibus Plan, 175,423 PSUs, 75,467 DSUs and 676,161 Options. He has transitioned onto the LTIP and all new awards are made as Options and performance vesting PSUs rather than Time-Vesting RSUs.

The Corporation also has trading guidelines in place for all Executives which specifically prohibit the purchase of financial instruments that are designed to hedge or offset a decrease in market value of the Corporation's securities.

Compensation of Named Executive Officers

CEO

The Chair of the HRCC works closely with the Chairman of the Board of Directors in completing the final performance appraisal of the CEO. The Chairman submits the annual performance appraisal and accompanying compensation recommendations to the HRCC for review and to the Board of Directors for approval.

In order to ensure alignment between the CEO and the rest of his senior executive team, the CEO participates in the same Annual Performance Incentive Plan as described in the section titled "Short-Term Incentives" starting on page 32. A full discussion of the 2013 business targets, results achieved, and the HRCC's evaluation of performance relative to the targets is provided on pages 33 and 34.

In 2013, the Board of Directors set five strategic objectives for the CEO:

1. Achieve the Corporation's financial objectives.
2. Conclude negotiations with key partners.
3. Build on the Corporation's global business strategy.
4. Evolve organizational effectiveness globally.
5. Build on Aimia's brand and market profile.

At the end of the year, the HRCC assessed the CEO's performance against these objectives. In the view of the HRCC, the CEO's delivery on these objectives resulted in an outstanding year for the Company, positioning it for success over the long-term. More specifically, under Mr. Duchesne's leadership:

1. 2013 was a year of outstanding accomplishments across all regions. Gross Billings were up 4.5% overall on a constant currency basis and we delivered against our guidance on all metrics, while setting the stage for global growth in 2014 and beyond. These results were achieved in a complex and dynamic year of key partner negotiations and business development.
2. Successful ten-year deals were reached between the Corporation and both CIBC and TD Bank. Card migration risk was reduced through the nature of the tri-party deal. A successful four-year deal was reached between the Corporation and American Express. Aeroplan Distinction was launched successfully in Canada, resulting in an enhanced rewards experience for partners and members. Working relationships were deepened with Sainsbury's (UK) and HSBC (Middle East). Partnerships were also strengthened with PLM and Cardlytics Inc., and business development and diversification enhanced through the acquisition of Smart Button and launch of China Rewards.
3. A new strategic and business planning process was implemented, resulting in a robust five-year strategic plan. This marked a step-change in the Corporation's ability to focus resources and execute on growth opportunities. A Global Advisory Board was launched, increasing the Corporation's access to strategic thinking and global business expertise. A strong foundation has been laid through this planning process and the milestone partner contracts concluded in 2013, setting Aimia up in a position of considerable strength for future growth.
4. Aimia's organizational design was reset in early 2013 to optimise the Corporation's ability to execute on business and growth opportunities and deepen competitive strength globally, while retaining its critical regional focus. Collaboration across regions and within the broader senior leadership team was enhanced, accelerating knowledge sharing and execution of key priorities. Global products and technology platforms evolved to ensure strong ability to deliver against customer and market requirements.

5. 2013 was a very strong year in terms of Aimia's shareholder and other stakeholder relations. The key card renewals and launch of Aeroplan Distinction in Canada and the continued growth of Aimia globally, both organically and through key investments and partnership, continued to raise the Corporation's overall investor and market profile. Aimia's brand has become well established and is well regarded by go-to experts on loyalty and customer-centric marketing.

The CEO's achievements in the areas listed above led the HRCC to recommend to the Board of Directors that the CEO be awarded an annual cash bonus for 2013 of approximately 150% of his base salary earned in 2013, consistent with the formula described in the "Short-Term Incentives" section on page 32. Details of the calculation of the annual performance incentive for the CEO are provided in the following table:

Role	2013 Base Salary Earned (CAD)	Target Incentive (% of base salary)	Payout Achieved		Annual Incentive Paid (CAD)
			Corporate Metrics ⁽¹⁾	Individual Metrics	
CEO	\$797,265	100%	143.3% of target	Exceeds Expectations	\$1,193,027

(1) Represents the weighted corporate metric score as per the Annual Performance Incentive Plan overview on pages 32-34.

The CEO participates in the LTIP, with the same terms and conditions as described in the section "Long-Term Incentives" starting on page 35.

For the financial year ended December 31, 2013, the following recommendations on compensation for the CEO were submitted for review and subsequently approved by both the HRCC and the Board of Directors:

- The CEO's base salary was unchanged in 2013, and will be increased to \$900,000 effective April 1st, 2014.
- The CEO's annual target bonus was unchanged in 2013.
- The CEO was awarded a bonus under the Annual Performance Incentive Plan in the amount of \$1,193,027 (150% of the aggregate base salary earned in 2013, as described above).
- The CEO was granted 216,050 Options and 51,220 PSUs in March 2013 under the LTIP with the same vesting terms and conditions as those described in the "Long-Term Incentives" section starting on page 35.

Other Named Executive Officers

All of the Corporation's NEOs identified in the Summary Compensation Table on page 44 participate in the same Annual Performance Incentive Plan as described in the section titled "Short-Term Incentives" starting on page 32.

The CEO works closely with the Chairman of the Board and the HRCC to establish financial and individual performance objectives for each of the executive officers of the Corporation, including the NEOs. The financial and individual performance metrics are described starting on page 32, with specific individual areas of focus aligned to each executive's role and responsibilities. Each executive's individual strategic objectives include specific targets that would, if made public, provide explicit identification of both the financial and strategic direction of the Corporation, including timing of strategic initiatives, and therefore provide highly competitive data as well as inappropriate market guidance to our competitors. The HRCC believes that disclosure of the specific individual strategic objectives under the Annual Performance Incentive Plan would seriously prejudice the Corporation's interests and significantly weaken its ability to maintain and build market leadership. As a result, these objectives are not disclosed. The CEO develops an annual performance appraisal for each of the executive officers, including the NEOs, based on quantitative results and a qualitative evaluation of each executive's performance measured against the predetermined criteria set at the beginning of each fiscal year. These performance appraisals are used to

determine the individual performance rating, which is worth 20% of the target annual performance incentive and is presented to the HRCC for subsequent submission for approval by the Board of Directors.

However, in the spirit of nurturing increasing shareholder value and driving a performance-based reward system, the performance objectives for both disclosed and undisclosed metrics are appropriately ambitious and significantly difficult to achieve, so as to align with our performance-based rewards philosophy. Individual performance objectives are generally based on strategic activities that are aligned with the Corporation's long-range plan, and where applicable must generally meet or exceed the actual results from the prior year. The proportion of total compensation represented by this undisclosed component of the short-term incentive plan is provided in the "Total Compensation Pay Mix" table on page 41 under the column labeled "% of Total Compensation from Annual Incentive Plans".

The following table provides additional detail on the annual performance incentive calculation for each NEO for 2013. Bonuses were determined by using the Annual Performance Incentive Plan formula presented in the section "Short-Term Incentives" (the same formula that was used to determine the CEO's bonus) and also reflect any adjustments made by the Board of Directors based on their judgement and discretion. A full discussion of the 2013 targets, results achieved, and the HRCC's evaluation of performance relative to the targets is provided on pages 33 and 34.

Role	2013 Base Salary Paid (CAD)	Target Incentive (% of base salary)	Payout Achieved			Annual Incentive Paid (CAD)

(1) Represents the weighted corporate metric score as per the Annual Performance Incentive Plan overview on pages 32-34.

(2) All amounts have been converted from British pounds to Canadian dollars using a conversion rate of \$1.7633 per GBP and \$1.0694 per USD, which corresponds to exchange rates on December 31, 2013.

(3) The 2013 annual incentive paid to the President & CEO, US is an amount guaranteed for his first year of employment. The President & CEO, US does not have further incentive guarantees.

In addition to the annual performance incentive awards described in the preceding table, each of the NEOs was granted awards under the LTIP in March 2013 as shown in the following table. None of the NEOs exercised any of their vested Options in 2013.

Role	Target Annual LTIP (% of base salary) ⁽¹⁾⁽²⁾	Annual 2013 LTIP Awards		
		Options		PSUs # of PSUs
		# of Options	Exercise price ⁽³⁾	
CFO	125%	80,180	\$15.62	19,010
COO	125%	126,730	\$15.62	30,050
President & CEO, Canada	125%	70,890	\$15.62	16,810
President & CEO, US	125%	75,930	\$15.62	18,000

- (1) The HRCC has the discretion to make annual LTIP awards above or below target, based on the recommendations of the CEO.
- (2) The annual LTIP mix for NEOs was 50% Options and 50% PSUs.
- (3) The estimated fair value of the Options on the date of grant was \$3.68.

Please refer to the Summary Compensation Table and other tabular disclosure on page 44 of this Information Circular for further details on the total compensation awarded to the NEOs for the 2013 financial year.

Total Compensation Pay Mix

The following table provides the “pay mix” (as hereinafter defined) of the total compensation awarded in 2013 for each of the NEOs. “Pay mix” is the resulting relative value of each compensation element following the allocation of total compensation value. It is expressed as a percentage of the total compensation.

Name and Principal Position	% of Total Compensation from Salary	% of Total Compensation from Share-Based Awards	% of Total Compensation from Option-Based Awards	% of Total Compensation from Annual Incentive Plans	% of Total Compensation from Pension Value	% of Total Compensation from All Other Compensation
Rupert Duchesne CEO	20%	20%	20%	31%	3%	6%
David L. Adams CFO	29%	18%	18%	27%	4%	4%
David Johnston COO	26%	18%	17%	31%	0%	8%
Vince Timpano President & CEO, Canada	28%	18%	17%	26%	5%	6%
Michael Zea President & CEO, US	33%	19%	19%	21%	1%	7%

The percentage of NEO total cash compensation (base salary and annual performance incentive) and total compensation that resulted from the achievement of individual performance objectives within the Annual Performance Incentive Plan that are based on qualitative and quantitative assessment of metrics that are not fully disclosed, as described on page 33, is shown in the following table. The HRCC believes that the performance objectives for both disclosed and undisclosed metrics are appropriately ambitious and significantly difficult to meet to ensure the leadership across the organization recognizes and delivers upon our performance-based rewards philosophy.

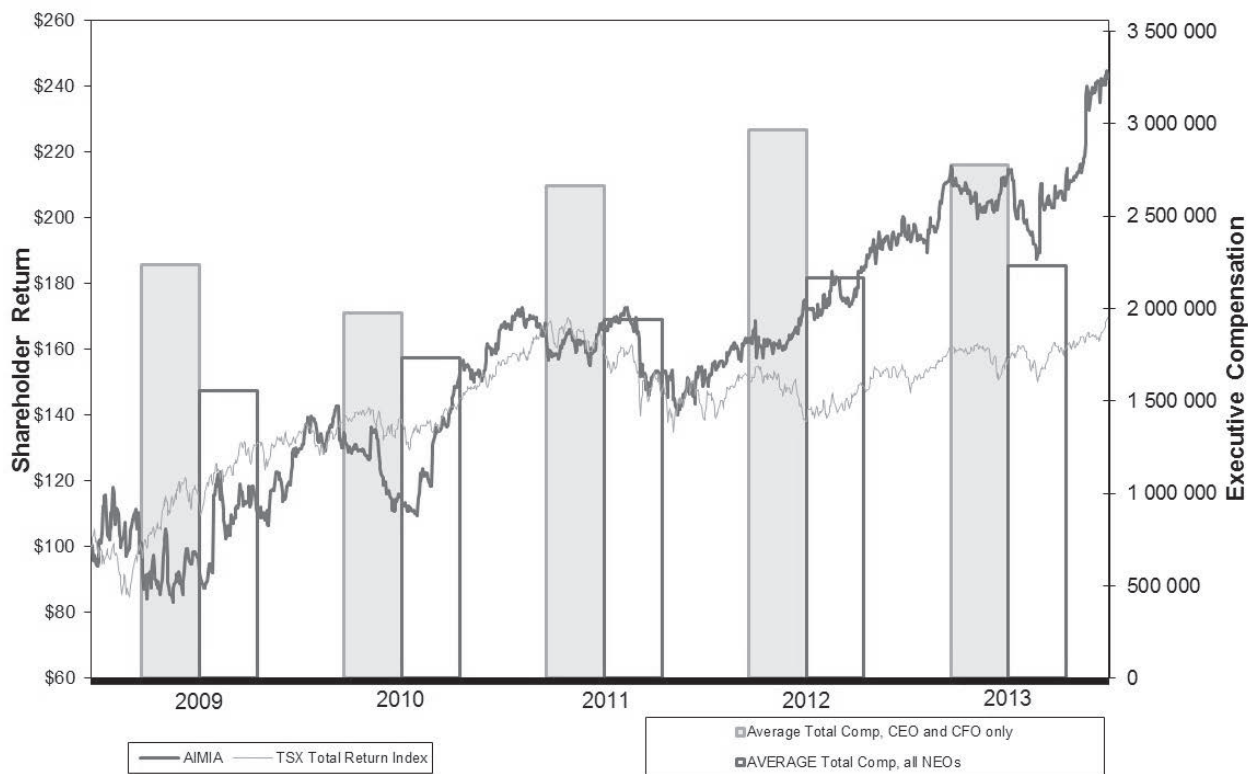

Name and Principal Position	% of Compensation Based on Metrics Not Fully Disclosed	
	% of Total Cash Compensation⁽¹⁾	% of Total Compensation
David L. Adams CFO	10.1%	5.7%
David Johnston COO	12.7%	4.1%
Vince Timpano President & CEO, Canada ⁽²⁾	17.1%	9.3%
Michael Zea President & CEO, US ⁽³⁾	N/A	N/A

- (1) Represents base salary plus annual performance incentive.

- (2) The metrics that are not fully disclosed for the compensation of the President & CEO, Canada also include regional Free Cash Flow, as discussed in "Statement of Executive Compensation - Compensation Discussion and Analysis – Elements of the Corporation's Compensation Program - Short Term Incentives."
- (3) The 2013 annual incentive paid to the President & CEO, US is an amount guaranteed for his first year of employment. The President & CEO, US does not have further incentive guarantees.

Alignment of Executive Compensation with Shareholder Interests

The following performance graph compares the total cumulative return of a \$100 investment in the Corporation's Shares made on January 1, 2009, with the cumulative return on the S&P/TSX Composite Total Return Index for the period beginning January 1, 2009 and ended December 31, 2013, and with the average compensation paid to the Corporation's CEO and CFO, and to all the NEOs, over the same period of time. It assumes reinvestment of all distributions and dividends during the covered period.

Average compensation is based on the sum of all compensation paid to NEOs as reported in the Corporation's proxy circulars for the years ending on December 31, 2009 through to December 31, 2013. For consistency and comparability, in years where more than five NEOs were reported, the sum of the base salary and bonus (or non-equity incentive plan compensation) paid to the five highest-paid NEOs were included in the calculation. For 2010, average compensation was calculated excluding the one-time bonus paid by the Corporation pursuant to a one-year post-transaction retention agreement between Carlson Marketing and Jeff Balagna that was established before the Corporation acquired Carlson Marketing.

Following its transition from an income trust during 2008, Aimia has delivered a strong corporate performance focused on strategic and operational execution in an improving market context. The Total Return to Shareholders over the period from 2009 to the end of 2013 was 21% on a compound annual growth basis, compared to 12% for the Canadian public companies community, as represented by the S&P/TSX Composite Total Return Index. Over the same period, CEO/CFO and NEO average total compensation levels have increased 4% and 7% respectively on a compound annual growth basis.

2013 Total Return to Shareholders of 36% reflected the market's reaction to the significant achievements made to secure the long term future of the Aeroplan program, with the renegotiation of the financial cards partnerships and the Aeroplan program refresh launched at the beginning of 2014. This compared to a

13% increase in Total Shareholder Return for the S&P/TSX Composite Total Return Index over the same period.

Average total compensation at the CEO/CFO level in 2013 was down 6% on the previous year, reflecting the comparison to the strong financial achievement in 2012. While the corporation delivered a strong performance on Free Cash Flow generation and Adjusted Net Earnings in 2013, this combined with an Adjusted EBITDA performance below target levels to result in a lower payout level than the previous year. The 3% increase in average total compensation for NEOs reflected contractual terms with promotions and additions within the NEO group in late 2012 and early 2013.

On a cumulative basis, total compensation paid to NEOs over the last five years represents 3.29% of the \$1.46 billion of A-EBITDA generated by the Corporation during the period (calculation of five year A-EBITDA is derived from IFRS for 2010, 2011, 2012 and 2013 and on prior Canadian GAAP for 2009). This reflects a strong alignment of NEO compensation with shareholder interests. The compensation awarded reflects both fundamental business-building achievements to date, and an incentive to pursue value creation, through a long-term focus on business strategy. In addition, long-term incentive programs serve the purpose of further tying executive compensation to the long-term performance of the Corporation and to Shareholders' interests.

- (6) Mr. Johnston's base salary increased to £395,000 on April 1, 2013. All amounts reported for the financial year 2013 have been converted using a conversion rate of \$1.7633 per GBP, which corresponds to the exchange rate on December 31, 2013; all amounts reported for the financial year 2012 have been converted using a conversion rate of \$1.6099 per GBP, which corresponds to the exchange rate on December 31, 2012; all amounts reported for the financial year 2011 have been converted using a conversion rate of \$1.5799 per GBP, which corresponds to the exchange rate on December 31, 2011.
- (7) Mr. Zea joined the Corporation on December 31, 2012 at an annualized salary of USD \$450,000 as per his employment contract. The amounts reported for the financial year 2012 represent his signing bonus and new hire share-based award using a conversion rate of \$0.9966 per USD, which corresponds to the exchange rate on December 31, 2012. All amounts reported for the financial year 2013 have been converted using a conversion rate of \$1.0694 per USD, which corresponds to the exchange rate on December 31, 2013.

For the year ended December 31, 2013 the number of PSUs awarded was determined by taking the target PSU value awarded and dividing it by \$15.62, which is the average closing price of the Shares on the TSX for February 28, March 1, 4, 5 and 6, 2013, the five trading day period following the last day of the black-out period following the announcement of the Corporation's annual financial results. The number of DSUs that were granted to Mr. Zea in 2012 was determined by taking the target DSU value awarded and dividing it by \$14.88, which is the average closing price of the Shares on the TSX for December 20, 21, 24, 27 and 28, 2012, the five trading days immediately preceding the date of grant.

The number of Options granted was determined by taking the target option award value and dividing it by \$3.68, the estimated fair market value on the date of grant. The assumptions used to determine the fair value of Options are based on the binomial options pricing model as follows: for the Options granted to NEOs, exercise price: \$15.62, which represents the average closing price of the Shares on the TSX for February 28, March 1, 4, 5 and 6, 2013, the five trading day period following the last day of the black-out period following the announcement of the Corporation's annual financial results; risk-free rate: 1.38%; dividend yield: 4.10%; Share price expected volatility: 31.97%; Option life: 7 years. This valuation is slightly different from the one used to determine the stock-based compensation expense recorded in the Corporation's financial statements for the year ended December 31, 2013 because the full 7-year Option term is used to establish the compensation value of the Options, while an expected life of 5.25 years is used to calculate the accounting value for expensing purposes. For accounting purposes, the estimated fair value of an Option as of the date of grant was \$3.33.

(1) The value of unexercised in-the-money Options at financial year-end is calculated on outstanding vested and unvested Options and based on the difference between the closing price of the Shares on December 31, 2013 on the TSX (\$19.51) and the exercise price.

(2) PSUs granted under the LTIP. The numbers shown in this column are the unvested balances of PSUs in the individual accounts as at December 31, 2013. The numbers include PSUs that were approved for vesting by the Board of Directors on February 27, 2014, on recommendation of the HRCC.

(3) The amounts shown in this column are the product of the total number of unvested PSUs held in the individual accounts as at December 31, 2013 multiplied by the closing price of the Shares on the TSX as of December 31, 2013 (\$19.51), assuming target performance metrics will be met. The actual number of PSUs that could vest is subject to each NEO's continued

employment up to the end of the respective cycles, and achievement of the Corporation's performance targets for the respective cycles and the Board's approval.

- (4) The amounts shown in this column are the product of the total number of vested DSUs that have not been paid out or distributed as at December 31, 2013 multiplied by the closing price of the Shares on the TSX as of December 31, 2013 (\$19.51).

Narrative Discussion

All NEOs based in Canada participate in the Corporation's Defined Contribution Plan. Under this plan, each NEO contributes 7.5% of his/her base salary to the plan annually and the Corporation makes a matching contribution equal to 7.5% of such NEO's base salary on an annual basis.

In the event that the combined employer and employee contributions exceed the money purchase limit as defined in the *Income Tax Act* (Canada), the Corporation will contribute an amount equal to 15% of the NEO's excess pensionable earnings to the SERP.

The NEO based in the United Kingdom received a contribution from the employer equal of 10% of base salary towards his retirement fund in 2013. There is no supplemental retirement plan for UK-based NEOs.

The NEO based in the United States participates in a 401(k) retirement savings plan established for all eligible US-based employees. Under the plan and IRS annual contribution maximums, executives may

contribute up to 75% of their base pay. The Company matches 40% of executives' contributions up to a maximum of 6% of base pay. There is no supplemental retirement plan for US-based NEOs.

Termination and Change of Control Benefits

Termination Without Cause

All of the NEOs benefit from severance arrangements upon termination without cause.

With the exception of Rupert Duchesne, pursuant to the terms and conditions of their employment agreements, if the employment of a NEO is terminated without cause, the individual is entitled to severance equal to 12 months of base salary, with an additional month per year of continuous service exceeding 12 years, up to an all inclusive maximum of 24 months (subject to a minimum period of 18 months for Mr. Adams) (the "**Severance Period**"). Each of the NEOs is also entitled to a lump sum cash amount equal to the product of (i) the number of months included in the Severance Period divided by 12; and (ii) the average amount of the bonus which was paid to the executive in respect of each of the two calendar years preceding termination. In addition, within 30 days following the approval by the Board of Directors of the Corporation's audited annual financial statements for the year during which the executive was terminated, and provided that the corporate performance during the year of such termination results in the payment of bonuses, he or she will be entitled to an amount equal to the bonus for the calendar year of such termination calculated at target multiplied by the number of days from January 1 of the calendar year of such termination to the date of termination, divided by 365. Furthermore, each of the NEOs will continue to receive basic health, dental and life insurance benefits, as well as an annual spending perquisites allowance, covering items such as certain professional services, supplementary insurances, executive medical services, and company car expenses, with certain exceptions, until the earlier of the expiry of the Severance Period or the date the executive secures alternate employment with comparable perquisites. The executive shall also be deemed to accumulate service during the Severance Period for purposes of the SERP and Defined Contribution Plan (retirement savings plan in the case of David Johnston) and the executive and the Corporation shall continue to make the required contributions to the SERP and Defined Contribution Plan (retirement fund in the case of David Johnston) during the Severance Period, in accordance with the terms of the plans.

Rupert Duchesne's employment agreement provides that if his employment is terminated by the Corporation without cause, he is entitled to a lump sum severance payment equal to 24 months of his base salary plus two times the average amount of his bonus received in each of the two calendar years preceding the year of termination, and he will continue to be entitled to the benefits, perquisites and other payments, as described above for the other NEOs, for 24 months following his termination without cause. In addition, within 30 days following the approval by the Board of Directors of the Corporation's audited annual financial statements for the year during which Rupert Duchesne was terminated, Mr. Duchesne will be entitled to an amount equal to the bonus for the calendar year of such termination multiplied by the number of days from January 1 of the calendar year of such termination to the date of termination, divided by 365.

All of the agreements for the NEOs described above provide for non-compete and non-solicitation restrictions upon termination of employment.

Change in Control Policy

The Corporation's change in control policy, adopted by the Board of Directors on June 19, 2008, and last amended March 28, 2013, upon recommendation of the HRCC (the "**Change in Control Policy**"), is designed to (a) retain certain executive officers of the Corporation (each, a "**Specified Executive**") through a period of potential uncertainty; (b) enhance the value of the Corporation and preserve value for Shareholders; (c) preserve the neutrality of the Specified Executives in negotiating and executing a potential Change in Control (as defined in the Change in Control Policy) transaction; (d) ensure that the Specified Executives' focus is on the best potential outcome for Shareholders; and (e) provide certain arrangements for Specified Executives whose employment with the Corporation is terminated following a Change in Control. The Change in Control Policy provides for a "double trigger" approach and no payments or incentive awards vesting acceleration is triggered solely as a result of a Change in Control.

The Change in Control Policy provides that in the event of a Specified Executive's Termination Due to a Change in Control (defined in the Change in Control Policy as termination without cause during the period commencing thirty (30) days prior to the Change in Control and ending on the date which is twenty-four (24) months after the Change in Control or resignation for good reason (a substantive and material unilateral change in the terms of employment) within twenty-four (24) months after the Change of Control), the Specified Executive shall be entitled to receive (a) an amount equal to the Specified Executive's accrued but unpaid annual salary for the period to and including the termination date, together with an amount equal to any accrued but unused vacation entitlement; (b) an amount equal to the annual bonus the Specified Executive would be entitled to receive, prorated until the termination date; (c) a lump sum equal to (i) three times the Specified Executive's annual salary, in the case of the CEO, and (ii) the Specified Executive's annual salary for a period equal to the product of: (A) twelve (12) months, with an additional month per year of continuous service exceeding 12 years; and (B) one and a half, up to an all inclusive maximum period of twenty-four (24) months, in the case of any other Specified Executive; (d) a lump sum equal to (i) three times the Specified Executive's average annual bonus, in the case of the CEO, and (ii) in the case of any other Specified Executive, the product of (A) the Specified Executive's average annual bonus paid in the last two fiscal years prior to the Change in Control by (B) the number of months included in the Severance Period of such Specified Executive, divided by 12; (e) the perquisites listed in the Specified Executive's employment agreement, for a period equivalent to the earlier of the end of the Severance Period or the date the Specified Executive secures alternate employment with comparable perquisites; (f) coverage under all group, life, medical, dental, supplementary life, annual health spending and similar account benefits listed in the Specified Executive's employment agreement for a period equivalent to the earlier of the end of the Severance Period or the date the Specified Executive secures alternate employment with comparable benefits; (g) reimbursement for all expenses incurred, in accordance with the Corporation's expense reimbursement policy; (h) subject to the terms of any applicable indemnification agreements, maintenance of coverage for the maximum extended reporting period available under any directors' and officers' liability insurance that is in place at the time of the termination; and (i) the executive shall also be deemed to accumulate service during the Severance Period for purposes of the SERP and Defined Contribution Plan and the executive and the Corporation shall continue to make the required contributions to the SERP and Defined Contribution Plan during the Severance Period, in accordance with the terms of the plans. Such entitlements under the Change in Control Policy are conditional upon the Specified Executive's compliance with obligations related to loyalty, confidentiality, non-disclosure, ownership of intellectual property, files and other property as well as obligations related to non-competition and non-solicitation for the duration of the severance period.

In the event of a Specified Executive's Termination Due to a Change in Control, all Options and PSU awards granted pursuant to the LTIP (or any other future similar plan) held by the Specified Executive shall be accelerated and become fully vested; and the Specified Executive shall be entitled to payments under any deferred compensation, pension or supplementary retirement plans offered by the Corporation, to the extent the Specified Executive participates in such plans and subject to the terms contained therein.

Upon Resignation of the CEO following a Change in Control (defined in the Change in Control Policy as resignation within twelve (12) months after the date of the Change in Control), the CEO shall be entitled to all payments, benefits, and rights under the Change in Control Policy, with the exception that he shall only be entitled to a reduced lump sum payment, as described in (e) above, of two times his annual salary and two year average annual bonus. Any unvested Options would be forfeited and any unvested PSUs would be paid on a pro-rata basis assuming target performance metrics had been met. Similarly, Mr. Adams' employment contract specifies that, subject to his continued employment with the Corporation for at least six months after the Change in Control date, in the event of his Resignation Following a Change in Control, as defined in the Change in Control Policy, Mr. Adams would be entitled to eighteen (18) months' severance benefits and in such instance, no vesting acceleration would apply to any outstanding unvested Options and PSUs.

The following table presents the estimated incremental benefits that would have been payable to the NEOs had certain events, as indicated therein, occurred on December 31, 2013. In all instances, the value of long-term incentive plans is estimated based on the closing price of the Shares on the TSX as of December 31, 2013 (\$19.51). All values for Mr. Johnston and Mr. Zea have been converted to Canadian dollars at an exchange rate of 1.7633 and 1.0694 respectively.

- (1) In case of involuntary termination, PSUs vest on a pro-rata basis subject to any performance conditions with payouts on the normal vesting date.
- (2) The estimated severance benefits are calculated based on the executive officers' 2013 annual base salary, the 2-year average bonus paid for fiscal years 2011 and 2012, the perquisites and, with the exception of Rupert Duchesne's severance entitlement other than pursuant to a Change in Control, the Corporation's contributions to the NEO's Defined Contribution Plan and SERP or retirement fund paid in 2013. Severance benefits would also include the continuance of group benefits for the shorter of the duration of the severance period or the period from the termination date to the date the NEO secures alternate employment. The value of such group benefits is not included in the above estimated severance payments presented in the table.
- (3) The NEO is also entitled to the payment of any accrued but unpaid annual salary and prorated bonus for the period up to and including the termination date. For 2013, these amounts are fully disclosed in the "Summary Compensation Table" and therefore not included in the estimated severance benefits presented in this table.
- (4) In the event of his termination without cause or resignation for good reason, Rupert Duchesne is entitled to 24 months' severance benefits calculated on the basis described in Notes (2) and (3) above.
- (5) In the event of his termination without cause or resignation for good reason, David Adams is entitled to severance benefits calculated on the basis described in Notes (2) and (3) above, for a severance period equivalent to 18 months.
- (6) In the event of their termination without cause or resignation for good reason, David Johnston, Vince Timpano and Michael Zea are entitled to severance benefits calculated on the basis described in Notes (2) and (3) above, for a severance period equivalent to 12 months plus 1 month per year of service exceeding 12 years, up to a maximum severance period of 24 months.
- (7) Unvested Options outstanding at the termination date would be forfeited. Any exercisable Options outstanding at the termination date would expire on the earlier of thirty (30) days after the termination date and the original expiry date.
- (8) In the event of his Resignation Following a Change in Control as defined in the Change in Control Policy and described under "Termination and Change of Control Benefits – Change in Control Policy", Mr. Duchesne would be entitled to 24 months' severance benefits calculated on the basis described in Notes (2) and (3) above and in such instance, any unvested PSUs would have been paid on a pro-rata basis assuming target performance metrics had been met with the balance forfeited. No

vesting acceleration would apply to any outstanding unvested Options. Similarly, the DSU Plan does not provide for the acceleration of DSU vesting.

- (9) Mr. Adams' employment contract specifies that, subject to his continued employment with the Corporation for at least six months after the Change in Control date, in the event of his Resignation Following a Change in Control, as defined in the Change in Control Policy and described under "Termination and Change of Control Benefits – Change in Control Policy", Mr. Adams would be entitled to 18 months' severance benefits (calculated on the basis described in Notes (2) and (3) above) and in such instance, no vesting acceleration would apply to any outstanding unvested PSUs, Options and DSUs.
- (10) In the event of their resignation other than for good reason, NEOs, with the exception of Mr. Duchesne and Mr. Adams, as described in Notes (8) and (9) respectively, are not entitled to any severance benefits. Furthermore, any outstanding unvested PSUs, DSUs and Options would be forfeited as of the resignation date.
- (11) There is no acceleration of Options upon resignation (other than for good reason) following a Change in Control.
- (12) In the event of their Termination Due to a Change in Control as defined in the Change in Control Policy and described under "Termination and Change of Control Benefits – Change in Control Policy", the NEOs, other than Mr. Duchesne, would be entitled to severance benefits for a period of 12 months plus 1 month per year of service in excess of 12 years, multiplied by 1.5, up to a maximum of 24 months. Based on their service with the Corporation on December 31, 2013, Mr. Adams', Mr. Johnston's, Mr. Timpano's and Mr. Zea's severance period would have been 18 months. Mr. Duchesne's severance period pursuant to the Change in Control Policy would have been 36 months. The severance amounts would be calculated on the basis described in Notes (2) and (3) above.
- (13) Had a Termination Due to a Change in Control, as defined in the Change in Control Policy and described under "Termination and Change of Control Benefits – Change in Control Policy" occurred on December 31, 2013, any outstanding unvested Options held by all NEOs would have vested, whether or not any performance condition had been met.
- (14) The amount represents the full vesting of all PSUs outstanding and unvested on December 31, 2013, assuming target performance metrics would have been met.
- (15) Neither the DSU Plan nor the Change in Control Policy provide for the accelerated vesting of DSUs pursuant to a Termination Due to a Change in Control as defined in the Change in Control Policy and described under "Termination and Change of Control Benefits – Change in Control Policy" above. The Board could, however, make such provision for the protection of the rights of the participants as the Board in its discretion considers appropriate in the circumstances.

Compensation of Directors

Narrative Discussion

The compensation structure of the Board of Directors is designed to attract and retain highly talented and experienced directors, leading to the long-term success of the Corporation. This requires that Directors be adequately and competitively compensated. The Board of Directors has determined that the directors of the Corporation should be compensated in a form and amount which is customary for comparable corporations, having regard for such matters as time commitment, responsibility and trends in director compensation. As part of its mandate, the Governance and Nominating Committee reviews on a regular basis the adequacy and form of Director compensation.

Summary of Board Compensation

In 2013, the Board of Directors, assisted by PCI – Perrault Consulting Inc., conducted a review of Director compensation policies and made certain adjustments with effect as of June 1, 2013. As of June 1, 2013, Director Compensation is as follows:

Directors receive a base annual retainer of \$45,000 while the Chairman of the Board receives an annual retainer of \$200,000. Except for the Chairman of the Board who is granted 8,000 DSUs per year (issued quarterly), Directors are granted 2,100 DSUs per year (issued quarterly) and are awarded meeting fees for Board and Committee meetings of \$1,500 per meeting (whether in person or by phone).

Directors also receive additional retainers of \$18,000, \$13,000 and \$12,000 if they chair the Audit Committee, the HRCC or the Governance and Nominating Committee, respectively. Members of the Audit Committee, the Governance and Nominating Committee and the HRCC received additional retainers of \$5,000, \$2,500 and \$2,500, respectively.

Directors can elect yearly to receive up to one hundred percent (100%) of their base annual retainer, Committee retainer and meeting fees in DSUs. Please refer to "Appendix B – Incentive Plans" for a description of the DSU Plan.

Directors also receive Aeroplan Program membership privileges and a discretionary travel award of up to \$20,000 per year on STAR Alliance carriers. Directors can elect yearly to receive the discretionary travel

award of \$20,000 in DSUs. Directors are reimbursed for travel and out-of-pocket expenses incurred in attending meetings of the Board of Directors or the Committees, as applicable.

Director Share Ownership Requirements

The Corporation's shareholding guidelines for directors (the "**Shareholding Guidelines for Directors**") were adopted by the Board of Directors on November 14, 2008 and are designed to promote Share ownership by Directors to better align their interests with those of Shareholders.

The Shareholding Guidelines for Directors require Directors to hold Shares or DSUs with an aggregate minimum value (the "**Minimum Share Ownership Value for Directors**") at least equal to (i) the lesser of two (2) times the annual retainer and 25,000 Shares and DSUs, in the case of the Chairman of the Board of Directors; and (ii) the lesser of three (3) times the annual retainer and 8,000 Shares and DSUs, in the case of any other Director, within a four-year period starting at the later of (a) November 14, 2008; and (b) the first election of the Director to the Board. Directors are not permitted to purchase financial instruments that are designed to hedge or offset a decline in value of the Corporation's Securities granted as compensation or held, directly or indirectly, by Directors.

The extent to which the Minimum Share Ownership Value for Directors is achieved will be evaluated annually at the end of each financial year. Until the Minimum Share Ownership Value for Directors has been achieved, fifty percent (50%) of a Director's annual base retainer will be paid in DSUs.

As at the date hereof, other than Ms. Horowitz who joined the Board of Directors in December of 2012, all Directors comply with the Shareholding Guidelines for Directors. As Mr. Duchesne is Group Chief Executive, he does not receive an annual retainer for his services to the Board of Directors. Pursuant to the Shareholding Guidelines, Mr. Duchesne must achieve a minimum ownership level of Shares, PSUs, DSUs or options equal to four (4) times his salary by January 1, 2014. As at the date hereof, Mr. Duchesne meets the Corporation's Shareholding Guidelines for Executives.

The Board has adopted policies and guidelines designed to align its interests and those of Management with our Shareholders' interests and to promote the highest standards of reporting, accountability and ethical behavior. We regularly review the corporate governance policies and practices we have developed over the years to maintain assurance that they continue to be comprehensive, relevant and effective.

The following describes the Corporation's governance practices with reference to the governance disclosure required of issuers under *National Instrument 58-101 – Disclosure of Corporate Governance Practices* (“**NI 58-101**”), including additional voluntary disclosure where appropriate, and guidance on governance practices contained in *National Policy 58-201 – Corporate Governance Guidelines*.

Board of Directors

Independence

The Charter of the Board of Directors provides that the Board of Directors shall at all times be constituted of a majority of individuals who are independent. Based on the information received from each Director of the Corporation and having taken into account the independence criteria set forth below, the Board of Directors concluded that all Directors of the Corporation, with the exception of Rupert Duchesne, are independent within the meaning of NI 58 -101.

All of the other Directors, namely Robert E. Brown, Roman Droniuk, Joanne Ferstman, Michael M. Fortier, John M. Forzani, Beth S. Horowitz, David H. Laidley, Douglas D. Port and Alan P. Rossy are “independent” Directors within the meaning of NI 58-101 in that each of them has no material relationship with the Corporation and, in the reasonable opinion of the Board of Directors, are independent under the applicable laws, regulations and listing requirements to which the Corporation is subject.

9 OF THE 10 NOMINEES FOR ELECTION TO THE BOARD OF DIRECTORS ARE INDEPENDENT.

The Board of Directors has determined that Rupert Duchesne is not independent because he is the Group Chief Executive of the Corporation.

As shown in the following table, nine (9) of the ten (10) nominees for election to the Board of Directors are independent:

At each Board of Directors meeting, non-Management Directors hold “in camera” sessions, in the absence of the members of Management of the Corporation. Questions and comments formulated during such “in camera” sessions are then passed on to the members of Management who were excluded from the “in camera” sessions. In addition, all Committees are entirely composed of independent Directors and meet without Management at each meeting.

AT EACH BOARD OF DIRECTORS OR COMMITTEE MEETING, NON-MANAGEMENT DIRECTORS HOLD “IN CAMERA” SESSIONS.

The Board of Directors has access to information independent of Management through external auditors and consultants and believes that sufficient processes are in place to enable it to function independently of Management. The Board of Directors and its Committees are also able to retain and meet with external advisors and consultants.

POSITIONS DESCRIPTIONS HAVE BEEN ADOPTED FOR THE CHAIR OF THE BOARD, THE GROUP CHIEF EXECUTIVE, THE CHIEF FINANCIAL OFFICER AND THE CHAIR OF EACH BOARD COMMITTEES.

Succession Planning

The Corporation has in place a succession plan identifying and developing successors from our most talented individuals for the Group Chief Executive, senior management and other positions deemed critical for the success of the Corporation. Each year the Group Chief Executive reviews with the HRCC the internal talent pool considered for these positions. The HRCC assists with candidate selection, development and performance evaluation as well as planning for illness, disability and other unscheduled absences. In addition, the Board of Directors regularly interacts with the members of the executive management team and knows them and their capabilities well. The Board of Directors also meets key staff members through their participation in meetings and presentations to the Board of Directors and its Committees, and informally through a variety of social events designed to allow Directors to get to know members of Management who are potential future leaders of the Corporation.

Orientation and Continuing Education

The Corporation has in place an orientation program for new Directors of the Corporation. New Directors are invited to attend orientation sessions with members of senior management as well as with the Group Chief Executive to improve their understanding of the business. Each new Director also receives an orientation binder with important information relating to the strategy and operations of the various the Corporation businesses, including the Board approved budget and corporate plan. New Directors are also asked to review the Charter of the Board of Directors, the Charter of each Committee, the position descriptions of the Chairman of the Board of Directors, the Group Chief Executive and the Chair of each Committee, the Code of Ethics, the Trading Guidelines and the Public Disclosure Policy of the Corporation in order to fully grasp the role he or she is expected to play as a Director and/or Committee member.

The Board of Directors recognizes the importance of ongoing director education. Directors are surveyed at least annually to determine areas of interest and this information is used to develop the continuous education program. The Directors regularly meet with Management and are given periodic presentations on the Corporation's business units and recent business developments. The presentation subjects are determined in part from education topics suggested by Directors. Also, the Chair of the Board of Directors invites Directors to attend dinners on the evening before regularly scheduled Board meetings. Regularly at these dinners the Board meets with senior-decision makers within the Corporation in order to get to know them better and to enhance the Board's understanding of the business and affairs of the Corporation. In June of 2013 the Board also held a day and a half strategic session in London, U.K., with members of the executive team and certain senior leaders of the regional business teams. In addition, in order to facilitate Directors' professional development, the Corporation encourages and funds attendance at seminars or conferences of interest and relevance. Amia is a corporate member of the Institute of Corporate Directors and pays for each Director's membership.

AN ORIENTATION PROGRAM FOR NEW DIRECTORS IS IN PLACE AND PERIODIC PRESENTATIONS ON THE CORPORATION'S BUSINESS ARE GIVEN TO THE DIRECTORS. FUNDING IS AVAILABLE TO ENCOURAGE DIRECTOR EDUCATION.

Public Disclosure Policy

The Corporation is committed to maintaining high standards regarding disclosure issues. The Board of Directors has adopted a Public Disclosure Policy (the "**Public Disclosure Policy**") to confirm in writing the Corporation's disclosure policies and practices that have been and continue to be in place and to which Management adheres. The objective of the Public Disclosure Policy is to provide guidelines with respect to the dissemination and disclosure of information which seek to ensure (i) communications that are

timely, accurate, factual, balanced and broadly disseminated and (ii) sound disclosure practices which maintain the confidence of the financial community in the integrity of the Corporation's information.

The Board of Directors has also established a disclosure policy committee, (the "**Disclosure Committee**") responsible for overseeing the Corporation's disclosure practices and implementing, administering and monitoring the effectiveness of, and compliance with, the Public Disclosure Policy. The Disclosure Committee consists of the Group Chief Executive, the Group COO, the EVP & CFO, the Chief Legal Officer and Corporate Secretary, the Chief Talent Officer and Head of Public Affairs and Communications, Senior Vice President, Investor Relations, Vice President and Corporate Controller and Vice President, Global Communications. The Disclosure Committee reviews and updates, as appropriate, the Public Disclosure Policy, on an annual basis or as needed to ensure compliance with changing regulatory requirements. The Disclosure Committee reports to the Audit Committee, on an annual basis or at such other time, as deemed appropriate by the Audit Committee, with respect to the Public Disclosure Policy.

Trading Guidelines

The Board of Directors has also adopted trading guidelines which set out guidelines on trading of Shares (or any other securities of the Corporation) for any person with knowledge of privileged information about the Corporation or any of its operating entities.

As a general principle, Covered Persons may only purchase or sell Shares (or any other securities of the Corporation) during the period commencing after two (2) full trading days after the Corporation's quarterly or annual results have been disseminated by means of a press release and ending on the last day of the then current quarter. For purposes of the trading guidelines, "Covered Persons" means directors, officers and senior management of the Corporation or any of its operating entities and anyone else who would reasonably be expected to have access to privileged information during periods when financial statements are being prepared but results have not yet been publicly disclosed. No employee of, or anyone having access to privileged information of the Corporation shall trade in the Shares (or any other securities of the Corporation) while in possession of privileged information of any kind (related to financial results or other matters), until such privileged information has been generally disclosed to the public by way of a press release.

Directors, as well as employees who are subject to the Shareholding Guidelines for Executives, are not permitted to purchase financial instruments that are designed to hedge or offset a decrease in market value of the Corporation's securities granted as compensation or held, directly or indirectly, by such employees.

Code of Ethics

The Corporation has adopted a Code of Ethics (the "**Code**"). The Code applies to everyone at the Corporation, including its Directors, officers and employees. A copy of the Code can be obtained on the Corporation's website at www.aimia.com. The Code is structured around our PASSION values: Partnership, Authenticity, Strong Opinions-Loosely Held, Simplicity-Brilliant Simplicity, Inclusiveness, Originality and Nimbleness. It covers a variety of subjects such as:

- (a) conflicts of interest;
- (b) use of the Corporation's assets;
- (c) privacy and confidentiality; and
- (d) fair dealing with other people and organizations.

A CODE OF ETHICS HAS BEEN ADOPTED AND APPLIES TO ALL DIRECTORS, OFFICERS AND EMPLOYEES OF THE CORPORATION.

The Governance and Nominating Committee has the responsibility for monitoring compliance with and interpreting the Code. The Code has been communicated or brought to the attention of all employees of

the Corporation. In addition, all employees and Directors of the Corporation are required to complete an acknowledgement form whereby they undertake to adhere to the principles and standards of the Code. The Corporation uses a confidential and anonymous reporting system that allows employees around the world to report suspected violations of the Code through the internet or a telephone hotline. The Board of Directors has concluded that such measures foster a culture of ethical conduct within the Corporation and are appropriate and sufficient to ensure compliance with the Code. Management prepares reports for the Governance and Nominating Committee noting any alleged violations, on a quarterly basis. Since the adoption of the Code, the Corporation has not filed any material change report pertaining to any conduct of a Director or executive officer of the Corporation that would constitute a departure from the Code. The Code and the process for administering it are reviewed by the Governance and Nominating Committee on an annual basis.

In addition to the relevant provisions of the *Canada Business Corporations Act* applicable to Directors, the Charter of the Board of Directors provides that the Directors shall disclose all actual or potential conflicts of interest and refrain from voting on matters in which the Director has a conflict of interest. The Charter also provides that a Director shall excuse himself or herself from any discussion or decision on any matter in which the Director is precluded from voting as a result of a conflict of interest or which otherwise affects his or her personal, business or professional interests.

Nomination of Directors

The Governance and Nominating Committee is composed entirely of independent Directors of the Corporation. It is responsible for considering and making recommendations on the desired size of the Board of Directors, the need for recruitment and the expected skill-set of new candidates. In consultation with the Chairman of the Board of Directors and the Group Chief Executive, the Governance and Nominating Committee determines the expected skill-set of new candidates by taking into account the existing strength of the Board of Directors and the needs of the Corporation. The Governance and Nominating Committee then reviews and recommends the candidates for nomination as Directors and approves the final choice of candidates for nomination and election as Directors by the Shareholders. Directors must have an appropriate mix of skills, knowledge and experience in business and an understanding of the industry and the geographical areas in which the Corporation operates. Directors selected should be able to commit the requisite time for all of the applicable board's business. The Governance and Nominating Committee maintains a list of potential director candidates for its future consideration and may engage outside advisors to assist in identifying potential candidates.

Please refer to the section "Committees – Governance and Nominating Committee" of this Information Circular for a description of the responsibilities, powers and operations of the Governance and Nominating Committee.

Compensation

The Governance and Nominating Committee, which is composed entirely of independent Directors, periodically reviews the compensation of the Directors. Please refer to the section "Statement of Executive Compensation – Compensation Discussion and Analysis" of this Information Circular for the criteria used to determine the remuneration of the Directors of the Corporation.

The HRCC, which is composed entirely of independent Directors, is accountable on behalf of the Board to determine the compensation for the executive officers of the Corporation and to recommend to the Board the remuneration package for the Group Chief Executive. The process the HRCC uses for these determinations can be found under the section "Statement of Executive Compensation – Compensation Discussion and Analysis" of this Information Circular.

Information relating to compensation consulting services provided by PCI – Perrault Consulting Inc. during the 2013 financial year can be found in this Information Circular under "Statement of Executive Compensation – Compensation Discussion and Analysis".

Board Committees

There are three (3) Committees of the Board of Directors: the Audit Committee; the Governance and Nominating Committee; and the HRCC. Each of the Committees is currently composed entirely of independent Directors. The roles and responsibilities of each Committee are described in the respective Committee charters. Please refer to the section “Committees” of this Information Circular for a description of the responsibilities, powers and operations of such Committees.

Assessments

The Governance and Nominating Committee assumes the responsibility of assessing the effectiveness of the Board of Directors, the Committees and the contribution of individual Directors on an annual basis.

THE BOARD ASSESSMENT PROCESS IS CONDUCTED ON AN ANNUAL BASIS.
--

The Governance and Nominating Committee has the mandate and responsibility to review, on an annual basis, the performance and effectiveness of the Board of Directors as a whole and each individual Director. The Chair of the Governance and Nominating Committee annually approves and distributes a comprehensive questionnaire to each member of the Board of Directors regarding various aspects of board and individual performance. The questionnaire covers a wide range of issues, including the operation and effectiveness of the Board of Directors and its Committees, the level of knowledge of the Directors relating to the business of the Corporation and the risks it faces, and the contribution of individual Directors, and allows for comments and suggestions. The Chair of the Governance and Nominating Committee compiles responses to the questionnaire and prepares a report to the Governance and Nominating Committee which provides a report to the full Board. The Governance and Nominating Committee may then recommend changes based upon such feedback to enhance Board and Committee performance or refer any areas requiring follow-up to the relevant Committees.

COMMITTEES

The Board of Directors has three (3) standing Committees:

- the Audit Committee;
- the Governance and Nominating Committee; and
- the HRCC.

The Board of Directors does not have an Executive Committee. All Committees of the Board of Directors are composed of independent Directors of the Corporation. The roles and responsibilities of each Committee are set out in formal written charters which are available on the Corporation's website at www.aimia.com. These charters are reviewed annually to ensure that they reflect best practices as well as applicable regulatory requirements. Each of the Committees has the authority to retain advisors to assist in fulfilling its obligations.

CHARTER OF THE BOARD OF DIRECTORS

I. PURPOSE

This charter describes the role of the Board of Directors (the “**Board**”) of Aimia Inc. (the “**Corporation**”).

This charter is subject to the provisions of the Corporation’s articles of incorporation and by-laws and to applicable laws. This charter is not intended to limit, enlarge or change in any way the responsibilities of the Board as determined by such articles, by-laws and applicable laws. Directors are elected or appointed by the shareholders of the Corporation and together with those appointed to fill vacancies or appointed as additional directors throughout the year, collectively constitute the Board.

II. ROLE

The Board is responsible for the stewardship of the Corporation and its business and is accountable for the performance of the Corporation.

The Board shall establish the overall policies for the Corporation, monitor and evaluate the Corporation’s strategic direction, and retain plenary power for those functions not specifically delegated by it to its Committees or to management. Accordingly, in addition to the duties of directors of a Canadian corporation as prescribed by applicable laws, the Board shall supervise the management of the business and affairs of the Corporation with a view to evaluate, on an ongoing basis, whether the Corporation’s resources are being managed with integrity and in a manner consistent with ethical considerations and stakeholders’ interests and in order to enhance shareholder value. In discharging their duties, directors must act honestly and in good faith, with a view to the best interests of the Corporation. Directors must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

III. COMPOSITION

Selection

The Board shall be comprised of that number of directors as shall be determined from time to time by the Board upon recommendation of the Governance and Nominating Committee of the Board.

The Governance and Nominating Committee shall maintain an overview of the desired size of the Board, the need for recruitment and the expected skill-set of new candidates. The Governance and Nominating Committee shall review and recommend to the Board candidates for nomination as directors of the Corporation. The Board shall approve the final choice of the candidates that are to be elected as directors of the Corporation by its shareholders.

Board members must have an appropriate mix of skills, knowledge and experience in business and an understanding of the industry and the geographical areas in which the Corporation operates. Directors selected should be able to commit the requisite time for all of the Board’s business.

Chairman

A Chairman of the Board shall be appointed by the Board. The Board currently believes that it is in the best interest of the Corporation and its shareholders that the offices of Chairman of the Board and Chief Executive Officer (currently the Group Chief Executive) be separate. The Chairman’s responsibilities shall include the following, in addition to the Chairman’s responsibilities pursuant to legislation and the Corporation’s articles and by-laws as well as those which may be assigned to him from time to time by the Board:

- (a) ensuring that the responsibilities of the Board are well understood by the Board;

- (b) ensuring that the Board works as a cohesive team and providing the requisite leadership to enhance Board effectiveness and ensure that the Board's agenda will enable it to successfully carry out its duties;

A majority of the Board shall be composed of directors who must be determined to have no material relationship with the Corporation and who, in the reasonable opinion of the Board, must be unrelated and independent under the laws, regulations and listing requirements to which the Corporation is subject.

Criteria for Board Membership

Board members are expected to possess the following characteristics and traits:

- (a) demonstrate high ethical standards and integrity in their personal and professional dealings;

The policy of the Board is that no person shall be appointed or elected as a director if the person exceeds 75 years of age. The policy allows for an exception where the Board determines it is in the interest of the Corporation to request a director to extend his/her term beyond the regular retirement age, provided however that such extension is requested in one-year increments.

IV. COMPENSATION

The Board has determined that the directors should be compensated in a form and amount which is appropriate and which is customary for comparable corporations, having regard for such matters as time commitment, responsibility and trends in director compensation.

- (r) conducting, through the Governance and Nominating Committee, an annual assessment of the Board and its Committees;
- (s) selecting, upon the recommendation of the Governance and Nominating Committee, the candidates that are to be nominated as directors of the Corporation;
- (t) selecting a Chairman of the Board; and
- (u) ensuring, with the Governance and Nominating Committee, that the Board as a whole, the Committees of the Board and each of the directors are capable of carrying out and do carry out their roles effectively.

VI. MEETINGS

The Board shall meet at least quarterly, with additional meetings scheduled as required. Such additional meetings may be held at the request of any director with notice given to all directors of the Board. Each director has a responsibility to attend and participate in meetings of the Board. The Chairman of the Board shall approve the agenda for Board meetings. The Corporate Secretary shall distribute the meeting agenda and minutes to the Board.

Information and materials that are important to the Board's understanding of the agenda items and related topics shall be distributed in advance of a meeting. The Corporation shall deliver information on the business, operations and finances of the Corporation to the Board on an as-required basis.

On the occasion of each regularly scheduled Board meeting and at other times as they may wish, non-management directors shall hold "in-camera" sessions, in the absence of members of management.

VII. DECISIONS REQUIRING PRIOR BOARD APPROVAL

In addition to those specific matters requiring prior Board approval pursuant to the Corporation's by-laws or applicable laws, the Board shall be responsible for approving the following:

- (a) interim and annual financial statements, provided that the Board may delegate to the Audit, Finance and Risk Committee the responsibility to review such financial statements and make its recommendations to the Board;
- (b) strategic plans, business plans and capital expenditure budgets;
- (c) raising of debt or equity capital and other major financial activities;
- (d) hiring, compensation and succession for the Group Chief Executive and other senior executives;
- (e) major organizational restructurings, including spin-offs;
- (f) material acquisitions and divestitures; and
- (g) major corporate policies.

VIII. BOARD COMMITTEES

There are three Committees of the Board: the Audit, Finance and Risk Committee, the Governance and Nominating Committee and the Human Resources and Compensation Committee. The roles and responsibilities of each Committee are described in the respective Committee charters.

Members of the Audit, Finance and Risk Committee, the Human Resources and Compensation Committee and the Governance and Nominating Committee shall be independent as required under the charter of each Committee and the laws, regulations and listing requirements to which the Corporation is subject.

IX. COMMUNICATION WITH THE BOARD

Shareholders of the Corporation and other constituencies may communicate with the Board and individual board members by contacting Investor Relations.

X. ADVISORS

The Board has determined that any individual director who wishes to engage a non-management advisor to assist on matters involving such director's responsibilities as a director at the expense of the Corporation should have his or her request reviewed by, and obtain the authorization of, the Chairman of the Board.

XI. OTHER MATTERS

The Board expects directors as well as officers and employees of the Corporation to act ethically at all times and to acknowledge their adherence to the policies comprising the Code of Ethics (the "**Code**"). The Board, with the assistance of the Governance and Nominating Committee, is responsible for monitoring compliance with the Code.

Directors shall disclose all actual or potential conflicts of interest and refrain from voting on matters in which the director has a conflict of interest. In addition, a director shall excuse himself or herself from any discussion or decision on any matter in which the director is precluded from voting as a result of a conflict of interest or which otherwise affects his or her personal, business or professional interests.

APPENDIX B

INCENTIVE PLANS

This Appendix B provides details regarding the LTIP, the DSU Plan and the Omnibus Plan.

The LTIP

The LTIP of the Corporation is dated June 25, 2008 and was amended by the Board of Directors on May 4, 2012, which amendments did not require Shareholder approval. On February 28, 2013, the Board of Directors of the Corporation approved certain amendments to the LTIP, which were approved by the Shareholders at the annual meeting held on May 14, 2013. The description of the LTIP provided below is that of the LTIP as amended by the Board of Directors on February 28, 2013 and as approved by Shareholders on May 14, 2013. Definitions of capitalized terms of the LTIP that are used in this section of Appendix B are reproduced below:

- **“Black-Out Period”** means a period during which designated employees of the Corporation cannot trade Shares pursuant to the Corporation’s policy respecting restrictions on employee trading which is in effect at that time (which, for greater certainty, does not include the period during which a cease trade order is in effect to which the Corporation, or in respect of an Insider (as such term is defined under the *Securities Act* (Ontario)), that Insider, is subject);
- **“Business Day”** means a day other than a Saturday, Sunday or statutory holiday, when banks are generally open for business in the City of Montreal, in the Province of Québec, for the transaction of banking business;
- **“Date of Grant”** means the date on which an Option or PSU is granted under the LTIP, which date may be on or, if so determined by the Board at the time of grant, after the date that the Board resolves to grant the Option or PSU, provided that if the date on which the Board resolves to grant an Option or PSU falls within a Black-Out Period or within five Trading Days following the end of a Black-Out Period, the Date of Grant shall be presumed to be the sixth Trading Day following the end of such Black-Out Period;
- **“Insider”** has the meaning given to this term in the *Securities Act* (Ontario), as such legislation may be amended, supplemented or replaced from time to time, and also includes “associates” and “affiliates” of an Insider, as such terms are also defined in such legislation;
- **“Retirement”** means the termination of employment at age 60 or later (or earlier with the consent of the Corporation’s Group Chief Executive, or the Board in the case of members of the Corporation’s executive management committee);
- **“Termination Date”** means (i) in the event of a Participant’s (as defined below) voluntary termination, the date on which such Participant ceases to be an employee of the Corporation or a subsidiary; (ii) in the event of the termination of the Participant’s employment by the Corporation or a subsidiary, the date on which such Participant is advised by the Corporation or the subsidiary, as the case may be, in writing or verbally, that his/her services are no longer required; or (iii) such later date as may be directed by the Corporation; and
- **“Trading Day”** means a Business Day on which a sale of Shares occurred on the TSX.

General Terms Applicable to PSUs and Options

The LTIP has replaced all prior long-term incentive plans as the Corporation’s principal long-term incentive plan for all new grants. The plan is designed to provide Eligible Participants (as defined below) with incentive compensation that enhances the Corporation’s ability to attract, retain and motivate the key contributors who will drive the Corporation’s long-term business success and to reward executives and other critical employees for significant performance that results in the Corporation meeting or exceeding its performance targets over the long-term. The plan is also designed to align Participants’ interests with

those of Shareholders by delivering awards which are either settled in shares of the Corporation or which track the value of the Corporation's shares. "**Eligible Participants**" or "**Participants**" are defined in the LTIP as being officers, senior executives and other employees of the Corporation as the Board of Directors or HRCC shall from time to time determine are in key positions in the Corporation. For greater certainty, non-employee directors of the Corporation are not Eligible Participants.

The LTIP permits the granting of Options and PSUs to Eligible Participants of the Corporation and its subsidiaries. The LTIP is administered by the HRCC.

A maximum of 16,381,000 Shares are reserved and available for grant and issuable pursuant to the LTIP, which number represents approximately 9.5% of the issued and outstanding Shares as of March 14, 2014. As at March 14, 2014, the 6,670,599 Shares to be issued pursuant to the exercise of outstanding Options represents approximately 3.8% of all of the Corporation's issued and outstanding Shares. As per the LTIP, the value of PSUs realized upon achievement of performance vesting conditions can be settled in cash or purchase of Shares on the open market, at the determination of the Board of Directors.

The LTIP provides that (i) the aggregate number of Shares reserved for issuance at any time to any one Eligible Participant and (ii) the aggregate number of Shares issued to any one Insider under the LTIP or any other proposed or established share compensation arrangement within any one-year period, shall not exceed five percent (5%) of the issued and outstanding Shares at such time. The LTIP also provides that the aggregate number of Shares (i) issued to insiders under the LTIP or any other proposed or established share compensation arrangement within any one-year period and (ii) issuable to insiders at any time under the LTIP or any other proposed or established share compensation arrangement, shall in each case not exceed ten percent (10%) of the issued and outstanding Shares.

Options or PSUs granted or awarded under the LTIP may not be assigned or transferred with the exception of an assignment made to a personal representative of a deceased Participant.

Specific Terms Related to the Options

The Board of Directors or the HRCC will (i) set the term of the Options granted under the LTIP which term cannot exceed ten (10) years and (ii) fix the vesting terms and Date of Grant of Options as it deems appropriate at the time of the grant of such Options. Should the expiration date for an Option fall within a Black-Out Period (as defined in the LTIP) or within ten Trading Days (as defined in the LTIP) following the expiration of a Black-Out Period, the expiry date of the Option shall be extended until that date which is the tenth Trading Day following the end of the Black-Out Period.

The exercise price of any Options granted pursuant to the LTIP will be determined by the Board of Directors or the HRCC when such Options are granted, provided that the exercise price shall not be less than the market value of the Shares at the Date of Grant. The "market value" of a Share shall be the average closing price of a Share on the TSX for the five Trading Days preceding the Date of Grant. Should the Date of Grant for any given Option fall within a Black-Out Period or within five (5) Trading Days following the end of a Black-Out Period, the Date of Grant will be presumed to be the sixth (6th) Trading Day following the end of such Black-Out Period. No Option shall be exercised by a Participant on a day that is not a Trading Day or during a Black-Out Period.

When exercising Options, a Participant may give the Corporation instructions to sell, at the prevailing market price of the Shares on the TSX at the time of any such sale, the necessary number of Shares issuable upon exercise of such Options to effect payment of the applicable purchase price with the resulting proceeds.

With the consent of the Board of Directors or the HRCC, a Participant may, rather than exercise an Option which the Participant is entitled to exercise under the LTIP, elect to terminate the Option in whole or in part and, in lieu of receiving the Shares to which the terminated Option relates, receive such amount of cash equal to the product of the number of Shares to which the terminated Option relates multiplied by the difference between the fair market value of a Share on the date of termination of the Options and the Option Price of the Shares to which the terminated Option relates, less any amount withheld on account of income taxes, which withheld income taxes will be remitted by the Corporation. The fair market value of a

Share shall be the closing price of a Share on the TSX on the Trading Day on which the election described above is made.

The decision to grant Options and the number of Options granted are subject to the Board's discretion. Options granted in 2013 were subject to the following conditions:

- 7 year term to expiry; and
- 25% vesting per year over 4 years.

While under the LTIP performance vesting conditions may be attached to Option awards, all Option awards granted in 2013 contained only time-based vesting conditions.

Specific Terms Related to the PSUs

PSUs will be granted to Eligible Participants, from time to time, in the sole discretion of the Board of Directors or the HRCC.

The Board of Directors or the HRCC will fix the period during which PSUs may vest which period shall not exceed three (3) years after the calendar year in which the PSU is granted (the "**Restriction Period**"). Each PSU grant will be subject to certain vesting conditions, including performance criteria, such conditions to be determined by the Board of Directors or the HRCC and to be provided to the Participant under a separate agreement.

The Board of Directors, upon recommendation of the HRCC, approved the adoption of corporate consolidated A-EBITDA growth as the basis for performance vesting conditions.

Consequently, the vesting of PSUs awarded in 2013 is subject to the following conditions and schedule:

- 1/6th of the award may vest at the end of each year in the three-year cycle, based on the achievement of the Corporation's consolidated annual A-EBITDA in each respective year;
- The remaining 1/2 of the award may vest at the end of the three-year cycle based on the achievement of the Corporation's consolidated cumulative A-EBITDA over the three-year period;
- The vested PSUs only become payable at the end of the three-year cycle, subject to the Participant's continued employment with the Corporation until the end of the cycle; and
- The vesting threshold is achievement of 80% of the target, vesting at 50% of the value, increasing linearly to 100%.

The Participant will be entitled to receive, as soon as possible upon confirmation by the Board of Directors or the HRCC that the vesting conditions (including the performance criteria) have been met, payment for each awarded PSU in the form of Shares purchased on the open market, cash, or a combination of Shares purchased on the open market and cash, at the discretion of the Board of Directors or the HRCC. For the purposes of such payment, the market value of Shares shall be the average closing price of a Share on the TSX for the five Trading Day period immediately following the determination by the Board or the HRCC that the vesting conditions have been met. Should the Board or the HRCC confirm that the vesting conditions have been met during a Black-Out Period, any cash payment shall be determined based on the average closing price of a Share on the TSX for the five Trading Days following the end of the Black-Out Period.

Treatment Upon Termination of Employment – Options

Unless the Board of Directors or the HRCC decides otherwise, Options granted under the LTIP will expire at the earlier of the expiration of the original term of the Option and (i) the Participant's Termination Date when the Participant's employment has been terminated for "cause"; (ii) on the thirty-first (31st) day following the Participant's Termination Date when the Participant's employment has been terminated

voluntarily or by the Corporation for reasons other than for “cause”; (iii) twelve (12) months after the Participant’s death; or (iv) three (3) years after the Participant’s Retirement.

Upon a Participant’s voluntary leave of absence, including without limitation, maternity and paternity leaves or disability which does not lead to a termination of employment, or when a Participant’s employment has been terminated by reason of injury or disability, any Options or unexercised part thereof granted to such Participant may be exercised as the rights to exercise accrue, with the consent of the Corporation’s chief executive officer or the Board of Directors in the case of members of the Corporation’s executive management committee.

Treatment Upon Termination of Employment – PSUs

Unless the Board of Directors or the HRCC decides otherwise, upon a Participant’s (i) voluntary leave of absence, including without limitation, maternity and paternity leaves; or (ii) termination of employment for reasons other than for cause, the Participant’s participation in the LTIP in respect of PSUs shall be immediately terminated, provided, however, that all unvested PSUs shall remain in effect until the end of the applicable Restriction Period. At the end of such Restriction Period, the Board of Directors or the HRCC will evaluate whether the vesting conditions and performance criteria were met in order to determine the amount of the payment to which the Participant is entitled, if any, in accordance with the following formula:

$$\frac{\text{Number of unvested PSUs outstanding in the Participant's account} \times \text{Number of completed months during the applicable Restriction Period, as of the date of the Participant's termination or voluntary leave of absence}}{\text{Total number of months included in the applicable Restriction Period}}$$

Upon a Participant’s death, the Participant’s participation in the LTIP in respect of PSUs shall be immediately terminated, provided, however, that the Participant’s legal representatives shall be entitled to receive that number of Shares equal to the number of unvested PSUs outstanding in the Participant’s account, as if the applicable vesting conditions related to those PSUs were met, and prorated in the same manner as set forth in the formula above.

Upon a Participant’s Retirement or termination of employment for reason of injury or disability or in the case of disability which does not lead to a termination of employment, all unvested PSUs shall remain in effect until the end of the applicable Restriction Period as if the Participant was still employed by the Corporation or not disabled. Upon a Participant’s employment being terminated voluntarily by such Participant or for “cause”, the Participant’s participation in the LTIP shall be immediately terminated on such Participant’s Termination Date and all PSUs credited to such Participant’s account that have not vested shall be forfeited and cancelled.

Impact of a Change of Control

Subject to the provisions contained in any employment agreement between a holder of PSUs and/or Options and the Corporation and the Change in Control Policy described on page 49, if (i) any person becomes the beneficial owner, directly or indirectly, of 50% or more of either the issued and outstanding Shares or the combined voting power of the Corporation’s then outstanding voting securities entitled to vote generally in the election of directors; (ii) any person acquires, directly or indirectly, securities to which is attached the right to elect the majority of the directors of the Corporation; (iii) the Corporation undergoes a liquidation or dissolution or sells all or substantially all of its assets; (iv) as a result of or in connection with: (A) a contested election of directors, or (B) a merger, consolidation, reorganization or acquisition involving the Corporation or any of its affiliated entities and another corporation or other entity, the nominees named in the most recent Information Circular of the Corporation for election to the Board no longer constitute a majority of the Board; or (v) a merger or consolidation of the Corporation is consummated with any other Person, other than (A) a merger or consolidation that would result in the voting securities entitled to vote generally in the election of directors outstanding immediately prior thereto continuing to represent, in combination with the ownership of any trustee or other fiduciary holding

securities under an employee benefit plan of the Corporation, at least fifty percent (50%) of the combined voting power of the voting securities entitled to vote generally in the election of directors of the Corporation or such surviving entity or parent thereof outstanding immediately after such merger or consolidation, or (B) a merger or consolidation effected to implement a recapitalization of the Corporation in which no Person is or becomes the beneficial owner, directly or indirectly, of securities of the Corporation representing fifty percent (50%) or more of the combined voting power of the Corporation's then outstanding securities, the Board of Directors may make such provision for the protection of the rights of the Participants as the Board of Directors, in its discretion, considers appropriate in the circumstances, including, without limitation, changing the vesting for the Options and/or the date on which any Option expires or the Restriction Period for the PSUs.

For greater certainty, unless the Board decides otherwise, the consummation of any transaction or series of transactions immediately following which the record holders of the Shares immediately before such transaction or series of transactions continue, directly or indirectly, to have substantially the same proportionate ownership in any entity which owns all or substantially all of the assets of the Corporation immediately following such transaction or series of transactions, shall not constitute a Change in Control.

Amendment Provisions of the LTIP

The LTIP includes an amendment procedure pursuant to which the Board may amend the LTIP or any Option or PSU outstanding under the LTIP, provided that such amendment shall: (a) not adversely alter or impair any Option or PSU previously granted, except for certain adjustments in the case of changes affecting the Shares ("**Shares Adjustments**"); (b) be subject to any regulatory approvals including, where required, the approval of the TSX; and (c) be subject to Shareholder approval, where required by law or the requirements of the TSX, provided that Shareholder approval shall not be required for the Board of directors to make the changes which may include but are not limited to: (a) amendments of a "housekeeping" nature; (b) a change to the vesting provisions of any Option or PSU; (c) the introduction or amendment of a cashless exercise feature payable in securities, whether or not such feature provides for a full deduction of the number of underlying securities from the LTIP reserve; (d) the addition of a form of financial assistance and any amendment to a financial assistance provision which is adopted; (e) a change to the Eligible Participants of the LTIP, including a change which would have the potential of broadening or increasing participation by Insiders; and (f) the addition of a deferred or restricted share unit or any other provision which results in Participants receiving securities while no cash consideration is received by the issuer.

Notwithstanding the foregoing, the Board shall be required to obtain Shareholder approval to make the following amendments: (a) any change to the maximum number of Shares issuable from treasury under the LTIP, including an increase to the fixed maximum number of Shares or a change from a fixed maximum number of Shares to a fixed maximum percentage, except in case of Shares Adjustments; (b) any amendment which reduces the exercise price of any Option after the Option has been granted or any cancellation of an Option and the substitution of that Option by a new Option with a reduced price, except in the case of Shares Adjustments; (c) any exchange or buy-out of any Option for cash or other property, in a case where the exercise price of such Option is below the prevailing price of one Share on the TSX; (d) any amendment which extends the expiry date of any Option or the Restriction Period of any PSU beyond the original expiry date, except in case of an extension due to a Black-Out Period; (e) any amendment which would allow non-employee directors to be eligible for awards under the LTIP; (f) any amendment which would permit any Option or PSU granted under the LTIP to be transferable or assignable by any Participant other than by will or pursuant to the laws of succession; (g) any amendment which allows a payment of PSUs through the use of Shares issued from treasury; (h) any amendment which increases the maximum number of Shares that may be issued to Insiders as a group or any one Insider under the LTIP or any other proposed or established share compensation arrangement, except in case of Shares Adjustments; and (i) any amendment to the amendment provisions of the LTIP, provided that Shares held directly or indirectly by Insiders benefiting from the amendments in (b) and (d) shall be excluded when obtaining such shareholder approval.

The LTIP Grants Awarded in Financial Year 2013

Effective March 7, 2013, the Board of Directors approved the granting of 636,071 PSUs to 198 participants.

As further approved by the Board of Directors, a total of 1,913,660 Options were awarded to 111 participants on March 7, 2013 with an exercise price of \$15.62 each. Such grants have a 7-year term, with vesting over 4 years at a rate of 25% per year.

Furthermore, the Board of Directors approved the granting of additional Options to new hires in 2013, as described in the following table, with the same vesting criteria and option term as those granted on March 7, 2013:

Grant Date	Number of Options Granted	Option Exercise Price
March 7, 2013	20,000	\$15.62
May 24, 2013	92,500	\$15.18
August 22, 2013	73,238	\$15.75
November 25, 2013	46,027	\$18.55

For 2013, an aggregate of 2,145,425 Options were granted, representing 1.2% of the total Shares outstanding. As at December 31, 2013 an aggregate of 7,090,723 Options were outstanding, representing 4.1% of total Shares outstanding. This compares to Options representing 3.4% of total Shares outstanding as at December 31, 2012.

The Corporation's 2013 long-term incentive plan awards were not granted based on the achievement of a specific set of performance criteria. Most plan participants received awards based on their role and degree of executive responsibility within the Corporation. Nevertheless, the Board and the HRCC retained the discretion to adjust LTIP awards upwards or downwards, based on the recommendation of Management, in order to recognize specific circumstances or instances of exceptional performance in the prior year.

None of the NEOs exercised any of their vested Options in 2013.

The DSU Plan

The DSU Plan is administered by the Governance and Nominating Committee for the compensation of directors, and by the HRCC for the compensation of designated officers and executives of the Corporation. Directors of the Corporation are automatically eligible to participate in the DSU Plan while the HRCC designates from time to time and at its sole discretion, the designated officers and executives of the Corporation who are eligible to participate in the DSU Plan.

Subject to approval by the Board of Directors, designated officers and executives may elect to convert a portion of their annual bonus amount earned in DSUs. In addition, at its discretion, the Board of Directors may from time to time award DSUs to recognize outstanding achievements or for reaching certain corporate objectives or as new hire awards for senior executives. As described earlier, the objectives underlying participation of the Corporation executives in the DSU Plan are to provide significantly longer term engagement of Management in fulfilling value needs of Shareholders, nurture long-term retention of critical talent and support executives in meeting the applicable Shareholding Guidelines for Executives.

Since January 1, 2009, Directors are granted annually (and issued quarterly) a fixed number of DSUs, which is set from time to time by the Board of Directors upon recommendation of the Governance and Nominating Committee (currently 2,100 DSUs per year for Directors other than the Chairman, and 8,000 DSUs for the Chairman). Directors are required to convert a minimum of 50% of their annual cash Board retainer fee in DSUs until they meet the applicable Shareholding Guidelines for Directors. In addition, Directors may also elect, on an annual basis, to convert all or a portion of their: (i) annual Board cash retainer fees; (ii) annual committee(s) cash retainer fees; and (iii) Board meeting fees, in DSUs.

Upon termination of service, a participant in the DSU Plan shall be entitled to receive for each DSU credited to his account the payment in cash of the value of a Share (the "**Share Value**") at the market price on the date of his termination of service, provided, however, that if a participant's termination of

service occurs concurrently with the occurrence of a Black-Out Period (as defined in the DSU Plan), the market price shall, in such case, be calculated at the end of the fifth trading day immediately following the last day of such Black-Out Period. No guarantee of the market value of the Shares is attached to the Share Value.

A participant in the DSU Plan is not entitled to exercise any Shareholder rights with respect to the Shares relative to DSUs that were granted to such participant. Additional DSUs are received as dividend equivalents. Vesting conditions may be attached to DSUs at the Board's discretion.

In the event of the occurrence of a Change in Control as defined in the Change in Control Policy, the Board of Directors may make such provision as the Board, in its discretion, considers appropriate in the circumstances, to ensure the value of DSUs prior to the implementation of any such transaction is not detrimentally affected as a result thereof.

During financial year 2013, a total of 47,809 DSUs were granted to non-executive Directors of the Corporation.

The Omnibus Plan

In 2006, the Board of Directors approved the implementation of the Omnibus Plan for attraction and retention purposes. All existing grants under the Omnibus Plan have been paid out and no further grants are anticipated. The Corporation expects to terminate the Omnibus Plan in 2014.

A trustee purchased Aeroplan Income Fund units under the Omnibus Plan, which were converted into Shares following the conversion of Aeroplan Income Fund to a Corporation on June 25, 2008. The trustee holds the Shares until such time as ownership vests to each participant. At the time of vesting, participants receive the Shares underlying the grants they received. Dividends declared by the Corporation on any Shares granted under the Omnibus Plan may, at the Corporation's discretion, be used to purchase additional Shares which vest concurrently and proportionately with the Shares initially granted.

Unvested Shares held by the trustee on behalf of an Omnibus Plan participant are forfeited if the participant resigns or is terminated for cause prior to the applicable vesting date. If a participant is terminated without cause, his or her unvested Shares vest on a pro-rata basis, subject to the satisfaction of performance vesting conditions, if any. If a participant retires, his or her unvested Shares continue to vest unless the award of the respective Shares is subject to the participant's continued employment until the end of the vesting period or the participant commences employment with a competitor, in which case the unvested Shares are forfeited. If a participant becomes disabled, Shares continue to vest. In the event of participant's death, his or her unvested Shares become immediately vested. Subject to the provisions contained in any employment agreement between a holder of RSUs and the Corporation, in the event of the occurrence of a Change in Control as defined under the Omnibus Plan text, any unvested RSUs will become vested as of the date of the Change in Control, whether or not the vesting conditions have been met.

The last cycle of new awards under the plan were made in 2010, and there are no awards outstanding under the Omnibus Plan.

On February 27, 2013, upon the recommendation of the HRCC, the Board approved the vesting of the 2010 grants under the CEO's employment agreement due to the achievement of the underlying performance conditions for each of the financial years therein, and pending completion of time vesting conditions.

Specifically for the period 2010-2012 the Corporation met the performance vesting criteria as shown in the following table:

Year	A-EBITDA Target	A-EBITDA Results	Results % of Target	Vesting Approved
2010	\$295.2 million	\$294.4 million ⁽¹⁾	100%	YES
2011	\$351.8 million	\$373.2 million ⁽¹⁾	106%	YES
2012	\$372.9 million	\$402.6 million ⁽²⁾	108%	YES

(1) Excludes extraordinary events.

(2) As reported in the Corporation's Management Discussion and Analysis for the year ended December 31, 2012.

In December 2013, as a consequence of the achievement of the performance conditions described above in addition to all time-based conditions, the 50,000 time vesting and 30,000 performance vesting units granted to the CEO in December 2010 were vested and released. As a result, ownership of 35,796 performance vesting and 59,661 time vesting units (including reinvested dividends) held in trust were transferred to the CEO.
