There are also risks inherent to the anticipated use of proceeds from the PLM transaction described in this MD&A, including failure to complete the PLM transaction, reduction to the final amount of net proceeds from the PLM transaction that could ultimately be allocated to share buybacks and/or tax-efficient special dividend to common shareholders due to the then market conditions, investment opportunities and other relevant factors, failure to make any share buybacks (whether through purchases under the NCIB or otherwise) and/or to pay any tax-efficient special dividend, and failure to obtain the requisite approval to renew the NCIB. - (a) On February 8, 2022, Aimia announced that it had entered into a binding letter of intent (the "Binding LOI") with PLM and Grupo Aeromexico, S.A.B. de C.V. and Aerovías de México, S.A. de C.V. (collectively, "Aeromexico") to divest the company's 48.9% equity stake in PLM, upon which PLM will become a wholly-owned subsidiary of Aeromexico. Upon meeting the conditions in IFRS 5, the investment in PLM was reclassified as an asset held for sale, upon which, the Corporation ceased to account for its investment using the equity method. In accordance with IFRS 5, the investment is measured at the lowest of its carrying amount or its fair value less costs to sale. At March 31, 2022, the investment is measured at its carrying amount.
- (b) The Corporation also has an investment in convertible notes of Kognitiv. The investment in the convertible notes is measured at fair value.
- (c) Following the acceptance of the share alternative by the Corporation and the privatization of Clear Media Limited, Aimia has a 10.85% stake in Ever Harmonic Global Limited., which wholly-owns Clear Media.

Q1 2022 HIGHLIGHTS

Signature of binding letter of intent to divest Aimia's investment in PLM

On February 8, 2022, Aimia announced that it had entered into a binding letter of intent (the "Binding LOI") with PLM and Grupo Aeromexico, S.A.B. de C.V. and Aerovías de México, S.A. de C.V. (collectively, "Aeromexico") to divest the company's 48.9% equity stake in PLM, upon which PLM will become a wholly-owned subsidiary of Aeromexico. As a result, the investment in PLM is classified as an asset held for sale as of March 31, 2022.

The parties to the Binding LOI will prepare and execute one or more definitive agreements for the transaction reflecting the terms and conditions of the Binding LOI (the "Definitive Agreement"), which Definitive Agreement will include customary representations and warranties, indemnity provisions and closing conditions, including, among others, consummation of the Debtor's Plan on its effective date and approval by Mexican antitrust authorities.

Upon closing of the transaction, Aimia will receive approximately \$483.6 million (US\$386.0 million) in net cash proceeds, subject to certain adjustments to be made at closing pursuant to the Binding LOI and Definitive Agreement. In addition, an earn-out in an amount of approximately \$24.2 million (US\$19.3 million) on a net basis, is payable to Aimia in cash should the PLM loyalty program achieve certain targeted annual gross billings amounts by 2024,

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

subject to certain adjustments pursuant to the Binding LOI and the Definitive Agreement. The terms of the transaction are in US dollars. The Canadian dollar amounts have been translated at a USD/CAD exchange rate as of March 31, 2022.

Use of proceeds

Aimia intends to utilize the majority of the proceeds from the PLM transaction to pursue the acquisition of majority or significant minority stakes in one or more cash generating businesses operating in either the U.S. or Canada, which will ideally utilize the Corporation's sizeable net operating tax losses.

Aimia also intends to allocate up to \$75.0 million of the net proceeds towards a combination of opportunistic share buybacks and/or a tax-efficient special dividend to common shareholders. The Corporation's intent is to utilize a combination of its current NCIB, plus its subsequent anticipated renewal (subject to the Toronto Stock Exchange approval), to enable total buybacks of up to 14.0 million common shares.

The final amount of the net proceeds from the PLM transaction that could ultimately be allocated to share buybacks and/or a special dividend to common shareholders will be subject, upon receipt of such proceeds, to the then applicable market conditions, investment opportunities and other relevant factors.

Additional investment in Kognitiv - Convertible Notes

In January 2022, Aimia invested an amount of \$10.0 million in convertible notes of Kognitiv. The notes have a 12% interest bearing rate (paid-in-kind) and, unless converted as a result of a qualified financing, will mature 18 months after the closing date. Unless the notes have been repaid before or on the maturity date, at the option of Aimia, the principal and accrued interest under the note may be:

- i. subject to the approval of other senior secured lenders, repaid in cash, in which case Aimia will also be issued a warrant to acquire 5 common shares of the Company at the then fair market value for each \$1,000 of principal amount of notes outstanding, which warrant shall be exercisable for a period of five years from the date of issuance; or
- ii. converted into an aggregate number of the shares of the most senior ranking share capital of the Kognitiv then outstanding (such class or series, the "Senior Shares") at a discount to the fair market value of such Senior Shares.

In the event the approval of other senior secured lenders is not obtained in i) above (and the notes are not converted in accordance with ii) above), the notes shall remain outstanding and the interest rate of the outstanding notes shall be increased by 5% from the maturity date until such repayment is completed.

In the event a qualified financing occurs, Aimia has the option to convert the notes into the same series of securities at a 20% discount to the price at which equity is offered in Kognitiv's qualified financing round.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

COVID-19 Impact Update

Over the past years, we have seen the impact that the COVID-19 pandemic is having on human health, the global economy and associated government measures to curb the spread of the virus, which includes varying degrees of self-quarantine and border closures. Aimia has been addressing the COVID-19 situation, working to mitigate the potential impacts on its employees and business. Aimia has the ability to perform its activities as a holding company by working remotely without significant disruption.

However, the pandemic is impacting the operations of certain of our investments or their partners to various degrees, which are detailed below.

PLM

The PLM coalition program has been impacted by COVID-19. The most significant impact has been on Aeromexico, the airline partner of PLM due to unprecedented border closures and travel restrictions. As the activities of Aeromexico are reduced, the cash inflows of PLM are reduced given lower points accumulation by the program members who accumulate on Aeromexico flights. In addition, the pandemic has impacted businesses and consumers credit card spending which has adversely impacted cash inflows of the program. Partially offsetting these impacts are lower cash outflows due to a significant reduction in points redemption by the program members with respect to airline rewards and cost cutting initiatives put in place by PLM to mitigate the lower levels of operating margins generated.

On June 30, 2020, Aeromexico commenced proceedings under Chapter 11 of the United States Bankruptcy Code ("Chapter 11") to implement a court supervised financial restructuring, while continuing to serve its customers. In October 2021, Aeromexico announced that it filed, together with its subsidiaries that are debtors in the company's Chapter 11 voluntary financial restructuring process, the Joint Plan of Reorganization (the "Plan"), a disclosure statement related to the Plan and a motion to approve solicitation procedures with respect to the Plan. The Plan includes the formal assumption of various agreements with PLM, including the commercial agreement (CPSA) between Aeromexico and PLM signed in June 2020.

In January 2022, Aeromexico announced that approximately 86% in votes were submitted in favor of the Plan. On January 28, 2022, Aeromexico announced that the Bankruptcy Court formally had confirmed the Plan. On March 17, 2022, Aeromexico announced it has successfully completed its financial restructuring process, including the substantial consummation of its Plan, and emerged from its Chapter 11 process.

As long as Aeromexico operates in a challenging environment due to COVID-19, Aimia anticipates reduced cash flows and net earnings for PLM compared to pre-pandemic levels as a result of the reduced air travel demand and capacity of Aeromexico.

PLM's carrying amount as of March 31, 2022 is \$47.8 million. On February 8, 2022, Aimia announced that it had entered into a binding letter of intent (the "Binding LOI") with PLM and Grupo Aeromexico, S.A.B. de C.V. and Aerovías de México, S.A. de C.V. (collectively, "Aeromexico") to divest the company's 48.9% equity stake in PLM upon which PLM will become a wholly-owned subsidiary of Aeromexico. As a result, the investment in PLM is classified as an asset held for sale as of March 31, 2022.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Kognitiv

Kognitiv provides a platform-as-a-service offering to clients across multiple sectors, including the travel and hospitality sector. Kognitiv's services provided to the travel and hospitality sector have been impacted by the COVID-19 related travel restrictions and border closures. The emergence of new COVID-19 variants, extension of travel restrictions and lockdowns across various jurisdictions as well as restructuring activities following the ISS transaction have caused additional delays in the execution of Kognitiv's business plan. Aimia tested the investment for impairment during the year ended December 31, 2021, as these delays to the business plan, which have pushed out the achievement of profitability further, were considered to be an indication that Kognitiv's carrying amount might have been impaired. Based on the results of the impairment test then performed, the carrying amount of the Kognitiv investment was determined to be lower than its recoverable value and therefore, no impairment was recorded. In the three months ended March 31, 2022, there has been no change to the conclusion reached.

Clear Media

Clear Media's revenues began to decline substantially in February 2020 amid the outbreak of COVID-19 which further slowed China's economic growth, negatively impacted customers' advertising spend and reduced demand for advertising space. In its March 17, 2021 Annual Results Announcement, Clear Media indicated that its revenue bottomed in March 2020 (prior to Aimia's investment in Clear Media) and that its revenue had been recovering in the second quarter of 2020. Clear Media's revenue continued their recovery in the second half of 2020 as well. Total revenue in the fourth quarter of 2020 also slightly exceeded the level of the same period in the prior year. In 2021, Clear Media's revenue increased by 22% for the full year over 2020.

In the three months ended March 31, 2022, facing the resurgence of COVID-19 cases, China continued to apply zero-COVID policy, which has triggered full and partial lockdowns in many Chinese cities, including Shanghai, Shenzhen, and Guangzhou. These lockdowns are significantly affecting the demand for outdoor advertising. Clear Media is therefore facing reduction in revenues similar to the first quarter of 2020. Clear Media is in the process of mitigating these impacts via various cost-saving plans and delays in capital expenditures compared to normal course.

The investment in Clear Media is recorded at fair value at each reporting period. The assumptions and estimates used in the valuation of Clear Media are described in [Note 3](#) of the accompanying condensed interim consolidated financial statements of Aimia for the three months ended March 31, 2022 as well as in section [Critical accounting estimates](#) of this MD&A.

Aimia continues to monitor the COVID-19 impacts on its investments closely.

PERFORMANCE INDICATORS (INCLUDING CERTAIN NON-GAAP FINANCIAL MEASURES)

GAAP FINANCIAL MEASURES

To measure performance, the Corporation uses and presents several financial measures in accordance with GAAP, including, but not limited to, various source of Income, Expenses, Earnings (loss) before income taxes, Net earnings (loss) and Earnings (Loss) by Common Share. Please refer to the [Critical Accounting Estimates](#) section for a discussion on the identified areas that are the most subject to judgments, inherently uncertain and which could change significantly in subsequent periods, as well as the [Change in Accounting Policies](#) section for the list of revised accounting standards and accounting policies adopted during the three months ended March 31, 2022 and their impacts on the consolidated financial statements.

NON-GAAP FINANCIAL MEASURES

In order to complement the analysis of the financial performance of its investments, certain Non-GAAP measures are presented in this MD&A. A reconciliation to these investments' most comparable GAAP measure can be found in the [Non-GAAP Financial Measures for Investments](#) section.

The distributions received during the three months ended March 31, 2022, have been received when the investment was classified as an asset held for sale and, therefore, the distributions have been recognized in "Interest, dividend and other investment income" in the consolidated statement of operations. Prior to the reclassification of the investment in PLM to assets held for sale on February 8, 2022, the distributions received from PLM were recorded as a reduction of the carrying amount of the investment and presented under the caption "distributions from equity-accounted investments" in the table above.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

SHARE OF NET EARNINGS (LOSS) OF EQUITY-ACCOUNTED INVESTMENTS

The share of net earnings (loss) of equity-accounted investments amounted to \$(6.9) million for the three months ended March 31, 2022, an unfavorable variance of \$2.5 million compared to the same period in the prior year, and is a direct result of the underlying performance of the equity-accounted investments analyzed below.

Share of net earnings (loss) of equity-accounted investments <i>(in millions of Canadian dollars)</i>	Three Months Ended March 31,	
	2022	2021
PLM Premier, S.A.P.I. de C.V.	0.6	1.7
Kognitiv	(7.5)	(5.7)
BIGLIFE	—	(0.4)
Total	(6.9)	(4.4)

Investment in PLM Premier, S.A.P.I. de C.V.

The share of net earnings of PLM amounted to \$0.6 million for the three months ended March 31, 2022, a decrease of \$1.1 million, mostly due to the fact that Aimia recorded its share of net earnings of PLM for a partial period in 2022, after which, the investment in PLM was classified as an asset held for sale and Aimia ceased to account for its investment using the equity method.

PLM also paid distributions of US\$4.8 million during the three months ended March 31, 2022, with Aimia's share being \$2.9 million (US\$2.3 million). Distributions received during the three months ended March 31, 2022, have been received when the investment was classified as an asset held for sale and Aimia had ceased to account for its investment using the equity method, therefore, the distributions have been recognized in "Interest, dividend and other investment income" in the consolidated statement of operations.

PLM paid distributions of US\$16.1 million during the three months ended March 31, 2021, with Aimia's share being \$9.8 million (US\$7.9 million). Given the fact that Aimia was accounting for its investment in PLM using the equity method at the time, Aimia's share of the distributions was recorded as a reduction of the carrying amount of the investment.

The gain has been adjusted in the three months ended September 30, 2021, due to an adjustment to the ISS disposal group. The gain is still subject to the finalization of closing working capital and indebtedness.

In March 2021, Kognitiv announced a sales transaction and partnership agreement with IRI, a provider of big data, predictive analytics and forward-looking insights for CPG, OTC health care organizations, retailers, financial services and media companies. IRI acquired from Kognitiv the Intelligent Shopper Solutions ("ISS") business. Through the partnership agreement, IRI and ISS will also explore opportunities for IRI's retailer clients to leverage Kognitiv's Platform-as-a-Service to scale their partnerships, connect peer-to-peer and deliver new value to consumers through hyper-personalized experiences within their ecosystem. The transaction generated significant upfront proceeds, with remaining proceeds scheduled to be received by Kognitiv over the next four years. ISS operations are presented as discontinued operations in Kognitiv's summarized statement of operations.

Q1 2022 Financing

In January 2022, Kognitiv secured additional financing from the following sources:

- \$31.0 million in the form of secured subordinated convertible notes. Investors in the secured subordinated convertible notes included \$15.0 million from a new U.S. institutional investor, \$10.0 million from Aimia, and \$1.25 million from company insiders, including members of the board of directors and senior management, among other investors.
- \$17.5 million in the form of a senior debt facility.

Refer to the sub-section [Net Changes in Fair Value of Investments](#) for additional details on Aimia's investment in these convertible notes.

This new capital will help support Kognitiv's growth initiatives, including research and development and accelerating the adoption of their proprietary collaborative commerce platform. These funds will also support Kognitiv's commercial efforts to convert their pipeline into recurring revenue, subscription clients.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Quarter ended March 31, 2022 compared to quarter ended March 31, 2021

Revenue for the three months ended March 31, 2022 amounted to \$14.1 million, a decrease of \$0.3 million compared to the revenue for the three months ended March 31, 2021, mainly due to client roll-offs and lower setup revenues. This was offset in part by the gradual recovery of revenues from travel and hospitality clients, albeit still partially dampened by the continued travel restrictions related to COVID-19; as well as new clients revenue.

Cost of sales and operating expenses for the three months ended March 31, 2022 amounted to \$25.7 million, a decrease of \$0.9 million compared to the three months ended March 31, 2021. The cost of sales and operating expenses for the three months ended March 31, 2022 include the impact of a true-up of \$1.0 million in operating expense relating to the previous financial year of Kognitiv. Excluding this impact, costs of sales and operating expenses improved by \$1.9 million compared to the same period in the prior year mainly due to reduced professional fees.

The net loss for the three months ended March 31, 2022 amounted to \$13.5 million, an unfavorable variance of \$3.3 million, due to the \$3.2 million preliminary gain on the disposal of ISS included in the three months ended March 31, 2021 results and other factors listed above.

Investment in BIGLIFE

On March 22, 2021, Aimia entered into a binding memorandum of understanding with Capital A to sell Aimia's investment in BIGLIFE in exchange for 85.9 million of new common shares of Capital A. On April 14, 2021, the parties entered into a share sale and purchase agreement under the same terms. This agreement was subject to Capital A shareholders approval as well as approval from Bursa Malaysia Securities Berhad ("Bursa Securities") on the listing of and quotation for the shares on the Main Market of Bursa Securities. With both conditions fulfilled, the sale of Aimia's investment in BIGLIFE closed on June 28, 2021.

The fair value of the Capital A common shares received on that date was \$22.3 million (MYR75.1 million), resulting in a gain on disposal of equity-accounted investment of \$6.9 million in the second quarter of 2021.

Aimia recognized unrealized fair value losses of \$1.3 million and \$1.1 million during the three months ended March 31, 2022 and 2021, respectively, both of which were due to the strengthening of the Canadian dollar versus the Hong Kong dollar.

On November 5, 2021, Clear Media Limited declared a dividend to Ever Harmonic payable in two installments of 50% each in November 2021 and May 2022. The November 2021 amount received has been used to repay the external financing, creating Forward Elite Payables in the amount of \$0.7 million owed to Aimia as of March 31, 2022 which is included in other non-current assets in the statement of financial position. Investments in TRADE X

Preferred shares

On July 27, 2021, Aimia invested \$44.0 million (US\$35.0 million) in convertible preferred shares of TRADE X, a global B2B cross-border automotive trading platform using a proprietary data and analytics technology. On August 11, 2021, an additional US\$10.0 million of convertible preferred shares were issued by TRADE X to other strategic investors in a subsequent closing to achieve its target round size of US\$45.0 million. Since Aimia's initial investment, TRADE X pursued its growth strategy both organically through the development of new international trade corridors and through the acquisition of two Canadian companies, including Techlantic Ltd., an Ontario-based automotive trading, redistribution, and financing company.

As of March 31, 2022, the fair value of the preferred shares has been estimated at \$43.9 million (US\$35.0 million) and the Corporation recorded an unrealized fair value loss of \$0.7 million during the three months ended March 31, 2022, for this investment due to the weakening of the US dollar versus the Canadian dollar.

Convertible Note

In December 2021, Aimia invested \$31.6 million (US\$25.0 million) in a convertible note of TRADE X. The note has an 8% interest bearing rate and, unless converted as a result of a qualified financing, will mature 12 months after the closing date. At maturity, Aimia will have the option to convert the note and accrued interest into TRADE X preferred shares using the original issue price, which is based on the most recent financing round mentioned above, or have the notes and accrued interests paid in full.

In the event a qualified financing occurs, the notes will automatically convert into the same equity instruments than such qualified financing at the lesser of (i) 25% discount over the qualified financing price per share; and (ii) price per share based on a certain pre-money valuation cap.

As of March 31, 2022, the fair value of the investment has been estimated at \$32.1 million (US\$25.6 million). The Corporation has accrued interest of \$0.6 million and recorded an unrealized fair value loss of \$0.5 million during the three months ended March 31, 2022 for this investment due to the weakening of the US dollar versus the Canadian dollar.

Investments in Capital A Berhad

Common shares

In the year ended December 31, 2021, the Corporation participated in the second tranche of a private placement of new ordinary shares in Capital A Berhad (formerly known as AirAsia Group Berhad, "Capital A"). Aimia also entered into a binding memorandum of understanding with Capital A to sell Aimia's investment in BIGLIFE in exchange for 85.9 million of new common shares of Capital A. On April 14, 2021, the parties entered into a share sale and purchase agreement under the same terms. This agreement was subject to Capital A shareholders approval as well as approval from Bursa Malaysia Securities Berhad ("Bursa Securities") on the listing of and quotation for the shares on the Main Market of Bursa Securities. With both conditions fulfilled, the sale of Aimia's investment in BIGLIFE closed on June 28, 2021.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

During the three months ended March 31, 2022, the Corporation sold 1,566,700 common shares of Capital A for proceeds of \$0.3 million (MYR 1.0 million) resulting in a \$0.1 million realized loss on these shares.

RCUIDS and Warrants

In the twelve months ended December 31, 2021, Capital A announced to its shareholders the issuance of renounceable rights for 7-year redeemable convertible unsecured Islamic debt securities ("RCUIDS") with a nominal value of MYR0.75 each, on the basis of two RCUIDS with one Warrant for every six Capital A Shares held by entitled shareholders.

As an entitled shareholder, Aimia was allotted 40.5 million RCUIDS and 20.2 million warrants, which were subscribed for by the Corporation for \$9.3 million (MYR 30.4 million). The rights issue was completed on December 31, 2021, with the listing and quotation of the RCUIDS and warrants on the main market of Bursa Securities. As of March 31, 2022, the fair values of the RCUIDS and warrants were \$8.9 million and \$1.4 million, respectively, and Aimia recognized unrealized fair value loss of \$0.1 million and unrealized fair value gain of \$0.1 million, respectively, during the three months ended March 31, 2022. Aimia also recorded dividend income of \$0.2 million received from the RCUIDS during the three months ended March 31, 2022.

Practice Note 17 ("PN 17")

As announced by Capital A in January 2022, Capital A continued to trigger the prescribed criteria pursuant to Paragraph 8.04 and Paragraphs 2.1(a) and 2.1(e) of PN17 of the Main Listing Requirements of Bursa Malaysia Securities Berhad. The company triggered the prescribed criteria given that (i) its December 31, 2020 audited financial statements included a unqualified audit opinion with material uncertainty relating to going concern from its external auditors, and (ii) Capital A's shareholders' equity on a consolidated basis was 25% or less of its share capital and such equity is less than MYR40.0 million based on the audited financial statements for the year ended December 31, 2020.

In the event Capital A fails to comply with any part of its obligations to regularize its condition within the timeframes permitted by Bursa Securities, Bursa Securities shall (i) suspend the trading of the company's listed securities on the 6th market day after the date of notification of suspension by Bursa Securities; and (ii) de-list the company subject to the company's right to appeal against the de-listing which appeal by the company must be submitted to Bursa Securities within 5 market days from the date of notification of de-listing by Bursa Securities.

This situation has created increased volatility in the share price of Capital A in 2022. As of this date, Capital A is in the midst of formulating a regularization plan to address its financial condition. The regularization plan is not expected to result in a significant change in the business direction or policy of the Company. Aimia is closely monitoring the developments.

Investment in convertible notes of Kognitiv

In January 2022, Aimia invested an amount of \$10.0 million in convertible notes of Kognitiv. The notes have a 12% interest bearing rate (paid-in-kind) and, unless converted as a result of a qualified financing, will mature 18 months after the closing date. Unless the notes have been repaid before or on the maturity date, at the option of Aimia, the principal and accrued interest under the note may be:

- i. subject to the approval of other senior secured lenders, repaid in cash, in which case Aimia will also be issued a warrant to acquire 5 common shares of the Company at the then fair market value for each \$1,000 of principal amount of notes outstanding, which warrant shall be exercisable for a period of five years from the date of issuance; or
- ii. converted into an aggregate number of the shares of the most senior ranking share capital of the Kognitiv then outstanding (such class or series, the "Senior Shares") at a discount to the fair market value of such Senior Shares.

In the event the approval of other senior secured lenders is not obtained in i) above (and the notes are not converted in accordance with ii) above), the notes shall remain outstanding and the interest rate of the outstanding notes shall be increased by 5% from the maturity date until such repayment is completed.

In the event a qualified financing occurs, Aimia has the option to convert the notes into the same series of securities at a 20% discount to the price at which equity is offered in Kognitiv's qualified financing round.

As of March 31, 2022, the fair value of the investment has been estimated at \$10.2 million, being the original issue price of the note adjusted for the interest accrued in the reporting period. The Corporation has accrued interest of \$0.2 million during the three months ended March 31, 2022, for this investment.

The fair value of the investment in equity instruments of JCDecaux was based on the quoted market value for its publicly traded equity securities. During the three months ended March 31, 2021, Aimia recognized an unrealized fair value gain of \$1.2 million for this investment.

The variance is mainly due to a decrease of \$3.8 million in compensation and benefits driven by a decrease of \$4.4 million of share-based compensation and other performance awards mainly due to a more significant increase in the Corporation share price in the three months ended March 31, 2021. The decrease is also due to the derecognition of \$1.9 million of the accrued liability related to unvested DSUs previously granted to an executive of the Corporation in connection with a change in role effective on March 29, 2022. Excluding share-based compensation, the compensation and benefits increased by \$0.6 million, mainly due to a non-recurring payment of \$0.7 million to an executive of the Corporation related to the change of role noted above.

Cash from (used in) investing activities for the three months ended March 31, 2022 amounted to \$(9.7) million and included the following:

- \$10.0 million invested in convertible notes of Kognitiv;

In addition to the foregoing, Aimia has agreed to indemnify Air Canada for income tax payments that may arise after the closing date relating to pre-closing tax periods for Aeroplan Inc. This included the income tax audit conducted by the CRA regarding certain Aeroplan income tax matters dating back to 2013 (the "2013 CRA audit"). In regards to the tax payment indemnification clause described above, \$100.0 million of the purchase proceeds were deposited in a separate interest-bearing account jointly controlled by Aimia and Air Canada pending the conclusion of the 2013 CRA audit.

Since the transaction close, Aimia received notices of reassessment from the CRA and Revenu Québec for the 2012 through 2017 taxation years and notices of assessment for the 2018 and 2019 taxation years. Aimia has funded the amounts due upon receipt of the assessments from the restricted cash account. The remaining restricted cash account balance of \$66.9 million was released to Aimia in July 2020 in accordance with the terms of the SPA between Aimia and Air Canada.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Aimia, in conjunction with Aeroplan Inc., has initiated the process to vigorously contest these matters. Based on external advice it has received, the Corporation believes that it is more likely than not that Aeroplan Inc. will prevail in the recourse procedures available to taxpayers in these situations, which could eventually lead to a court contestation. Based on this assessment, Aimia did not record any income tax expenses related to discontinued operations in its financial statements and presents the amount funded in other non-current assets. Should Aeroplan Inc. be successful in its recourse procedures, the \$32.9 million remitted to the CRA and Revenu Québec from the original \$100.0 million restricted cash account would be returned to Aimia.

Class actions

Class actions seeking reimbursement of fuel surcharges, airport improvement fees and passenger charges

Following the completion of the sale of the Aeroplan Program and related assets on January 10, 2019, Aimia will bear 50% of the liability and costs, if any, associated with these class action proceedings against Aeroplan, up to a cap of \$25.0 million for Aimia, after which Air Canada is solely responsible.

Management believes that Aeroplan Inc. has a strong defense to these class actions and believes that it is more likely than not that its position will ultimately be sustained; therefore, no amount was recorded in the Corporation's consolidated financial statements as at March 31, 2022 and December 31, 2021.

Other claims and litigation

Claim from a former executive

On November 12, 2020, a former executive of the Corporation filed a statement of claim with the Ontario Superior Court against Aimia seeking, among other remedies, an aggregate of at least \$9.0 million in compensatory and punitive damages for breach of contract and wrongful dismissal. Aimia intends to vigorously defend against the claim. Given the stage of the proceedings, it is too early to assess whether there will be a material impact as a result of this claim. No amount has been recorded in these financial statements with respect to this claim.

COMMON SHARES

Normal course issuer bid

On June 17, 2021, the Corporation announced it had received approval from the Toronto Stock Exchange to purchase up to 7,349,638 of its issued and outstanding common shares under a normal course issuer bid during the period from June 21, 2021 to no later than June 20, 2022.

The Corporation has not repurchased any common shares during the three months ended March 31, 2022.

Subsequent to March 31, 2022, Aimia repurchased 340,911 common shares for a total consideration of \$1.8 million.

ESCROW SHARES AND CONTINGENT SHARES

On June 19, 2020, Aimia announced the closing of the acquisition of all outstanding shares of Mittleman Brothers LLC, a related party to the Corporation and the parent company of Mittleman Investment Management, LLC, an SEC-registered adviser that provides discretionary portfolio management to institutional investors and high-net-worth individuals.

The fair value of the total consideration has been estimated at \$16.4 million and includes of \$14.4 million related to the business acquisition and \$2.0 million of deferred compensation. The total consideration consisted of \$6.3 million (US\$4.6 million) in cash paid at closing and up to approximately 4.2 million common shares of the Corporation. The consideration in common shares included 1.5 million common shares that were issued as initial consideration and up to 2.7 million common shares that will be issued to the sellers subject to achievement of certain earn-out and performance related targets. Of those 2.7 million common shares, 1.6 million are subject to forfeiture and/or clawback clauses, and have already been issued and deposited in escrow (the "escrow shares"). The remaining 1.1 million common shares will be issued upon achieving the performance related targets (the "contingent shares").

The performance related targets include a significant increase in MIM's assets under management or Aimia's share price trading at a weighted average of \$6.00/share or higher over a consecutive 20 day trading period, in each case, prior to the fourth anniversary of the closing of the transaction.

STOCK-BASED COMPENSATION

Effective March 29, 2022, Mr. Christopher Mittleman ceased to be Chief Investment Officer of Aimia to serve solely as the Chief Investment Officer of Mittleman Investment Management, LLC, a wholly-owned subsidiary of Aimia. In connection therewith, on March 29, 2022, all unvested Deferred Share Units held by Mr. Mittleman have been forfeited. The liability associated with these unvested DSUs has been derecognized during the three months ended March 31, 2022.

Aimia is subject to Part VI.1 tax under the Income Tax Act (Canada) (the "ITA") at an imposed tax rate of 40% associated with dividends paid on its preferred shares. For the three months ended March 31, 2022, the gross amount of Part VI.1 tax expense is \$1.3 million (2021: \$1.3 million). In prior years when Aimia paid dividends on its Preferred Shares, Aimia transferred all or part of its Part VI.1 tax liability to its related Canadian subsidiaries to offset the Part VI.1 tax by reducing the taxable income of its Canadian subsidiary and Part 1 tax liability. However, following the sale of Aeroplan and the Kognitiv transaction, Aimia and its related Canadian subsidiaries currently do not have sufficient Canadian taxable income to benefit from the Part VI.1 tax deduction to offset the Part 1 tax. Any unused Part VI.1 tax deduction are carried forward as non-capital losses under the rules specifically provided under the ITA.

During the three months ended March 31, 2022 and 2021, the Corporation paid \$1.3 million and \$1.3 million of Part VI.1 tax, respectively.

On May 5, 2022, the Board of Directors of Aimia declared quarterly dividends of \$0.300125 per Series 1 preferred share and \$0.375688 per Series 3 preferred share, in each case payable on June 30, 2022, to shareholders of record on June 16, 2022.

CHANGES IN ACCOUNTING POLICIES

Adoption of revised accounting standards

The Corporation has adopted the following revised standards as detailed below:

Annual Improvements to IFRS Standards 2018-2020

The IASB issued 'Annual Improvements to IFRS Standards 2018 - 2020, which includes amendments to the following standards:

- IFRS 9, *Financial instruments* was amended to address which fees should be included in the 10% test for derecognition of financial liabilities.
- IFRS 1, *Presentation of financial statements* amended the exemption to allow a subsidiary adopting IFRS at a later date than its parent to also measure cumulative translation differences using the amounts reported by the parent based on the parent's date of transition to IFRS.
- IFRS 16, *Leases* amended illustrative example 13 to remove the illustration of payments from the lessor related to leasehold improvements.

These amendments are effective for annual reporting periods beginning on or after January 1, 2022. The amendments did not have any impact on the consolidated statements of the Corporation.

Reference to Conceptual Framework (Amendments to IFRS 3)

The IASB issued 'Reference to the Conceptual Framework (Amendments to IFRS 3) with amendments to IFRS 3 'Business Combinations' that update an outdated reference in IFRS 3 without significantly changing its requirements, add a new exception for certain liabilities and contingent liabilities to refer to IAS 37 or IFRIC 21 rather than the 2018 Conceptual Framework, and clarify that an acquirer should not recognize contingent assets at the acquisition date. The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The amendments did not have any impact on the consolidated statements of the Corporation.

IAS 37 Onerous contracts - Cost of fulfilling a contract

The IASB issued 'Onerous Contracts — Cost of Fulfilling a Contract (Amendments to IAS 37)' amending the standard regarding costs a company should include as the cost of fulfilling a contract when assessing whether a contract is onerous. The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The amendments did not have any impact on the consolidated statements of the Corporation.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with the International Financial Reporting Standards ("IFRS") requires management to make estimates, judgments and assumptions that management believes are reasonable based upon the information available. These estimates, judgments and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results can differ from those estimates (refer to [Caution regarding forward-looking information](#)). For the three months ended March 31, 2022, significant estimates made in preparation of the condensed interim consolidated financial statements include:

- Impact of COVID-19 on the value of certain Aimia's investments;
- Measurement of the fair value of the investments in Clear Media and Trade X, which include significant unobservable inputs;
- Measurement of the fair value of the investment in convertible notes of Kognitiv;
- Income Taxes;
- Contingent Liabilities.

Additional details about these estimates can be found in the condensed interim consolidated financial statements of Aimia for the three months ended March 31, 2022 and the notes thereto.

CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Corporation has adopted disclosure controls and procedures, with management's assistance, that are under the responsibility of the Chief Executive Officer and Chief Financial Officer, in order to provide reasonable assurance that they are made aware of material information. The Corporation has also adopted internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with IFRS.

During the three months period ended on March 31, 2022, there were no changes in the Corporation's internal controls over financial reporting that have significantly affected, or are reasonably likely to significantly affect, Aimia's internal controls over financial reporting.

Because of inherent limitations, internal controls over financial reporting and disclosure controls can provide only reasonable assurances and may not prevent or detect misstatements. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Audit, Finance and Risk Committee reviewed this MD&A, and the condensed interim consolidated financial statements, and the Board of Directors of Aimia approved these documents prior to their release.

RISKS AND UNCERTAINTIES AFFECTING THE BUSINESS

The results of operations and financial condition of Aimia are subject to a number of risks and uncertainties and are affected by a number of factors outside of the control of Management.

For more information, and for a complete description of the risk factors that could materially affect the business, please refer to the corresponding section in the MD&A of the Corporation for the financial years ended December 31, 2021 and 2020 dated March 29, 2022.

The risks described therein and in the MD&A of the Corporation for the financial years ended December 31, 2021 and 2020 may not be the only risks faced by Aimia. Other risks which currently do not exist or which are deemed immaterial may surface and have a material adverse impact on Aimia's results of operations and financial condition.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

NON-GAAP FINANCIAL MEASURES FOR INVESTMENTS

KOGNITIV

Kognitiv Adjusted EBITDA

Adjusted EBITDA for Kognitiv ("Kognitiv Adjusted EBITDA") is earnings before net financial income (expense) and net income tax expense adjusted to exclude depreciation, amortization, shared-based compensation, restructuring expenses, business acquisition/disposal related expenses and impairment charges related to non-financial assets.

Kognitiv Adjusted EBITDA is not a measurement based on GAAP, is not considered an alternative to net earnings in measuring profitability, does not have a standardized meaning and is not comparable to similar measures used by other issuers. A reconciliation to earnings before net financial income (expense) and net income tax expense is provided below.

Kognitiv Adjusted EBITDA is used by Aimia and Kognitiv's management to evaluate performance. Aimia and Kognitiv's management believe Adjusted EBITDA assists investors in comparing Kognitiv's performance on a consistent basis excluding depreciation, amortization, impairment charges related to non-financial assets, share-based compensation, which are non-cash in nature and can vary significantly depending on accounting methods as well as non-operating factors such as historical cost. Aimia and Kognitiv's management believe that the exclusion of restructuring and business acquisition/disposal related expenses assists investors by excluding expenses that are not representative of the run-rate cost structure of Kognitiv.

	Three Months Ended March 31,	
<i>(in millions of Canadian dollars)</i>	2022	2021

Share-based compensation	0.9	0.8
Kognitiv's Adjusted EBITDA ^{(a)(b)}	(10.7)	(11.4)

(a) A non-GAAP measure.

(b) Loss before net financial income and income tax expense as well as Kognitiv's Adjusted EBITDA for the three months ended March 31, 2021, are presented on a continuing operations basis, excluding ISS discontinued operations.
